We have tried to ensure that all price and product information is correct at the time of going to print. However, the specifications contained in this catalogue are for information purposes only and are subject to change. Due to our ongoing policy of product development and improvement, all prices, specifications and features are subject to change without prior notice. Errors and omissions excepted.

Discover Your Bathrooms Potential

Welcome to the new edition of the Bathroom Collection. At the front of the catalogue you'll find a comprehensive overview of our range of over 5,000 products, to help you find what you're looking for.

We strive to produce a catalogue at least twice a year to ensure we have as much detailed information and newly added product ranges.

Our aim is to have visually appealing quality products for bathrooms, cloakrooms and en-suites of all shapes and sizes, and to suit all tastes and budgets.

We offer full technical backup for all customers, supported by large stocks and a dedicated single depot delivery service throughout the UK. This is to ensure all clients receive the best service from conception to completion and aftersales.

We have tried to ensure that all price and product information is correct at the time of going to print. However, the specifications contained in this catalogue are for information purposes only and are subject to change. Due to our ongoing policy of product development and improvement, all prices, specifications and features are subject to change without prior notice. We deliver all our goods on our own dedicated transport fleet to ensure a speedy and problem free service. However, in the unlikely event of a problem with any items, we would stongly recommend that customers order their goods with enough time to thoroughly check them and allow time for a replacement to be sent before installation commences. Errors and omissions excepted. As a company we encourage all of our customers to recycle all packaging from our products.

Matt White Baths

Eastbrooks new Matt White Baths, stand apart with their unique qualities and looks.

Crafted through casting, they boast a pure matt texture without any coatings or glaze. This pure white surface has a remarkable ability to absorb and gently scatter light, creating a soothing ambience.

This new Matt White option aslo offers a natural warmth that preserves the water's heat, inviting you to indulge in longer and enjoy those relaxing moments of tranquillity.

Electronic Eco Flush

Throughout this section you will find various cisterns which are able to accommodate the Jollytronic universal bottom entry cistern fitting 7.1002.

The hygienic, no touch flushing system with its motion-activated infrared mechanism allows for hygienic, contact-free operation, while offering water-saving options: a quick hand wave for half a flush and a 4-second hold for a full 6L flush.

BUILT IN SENSOR
This system flushes for as long as the sensor is covered which allows the user to flush the toilet for just the right length of time needed to clear.

Electrronic Eco Flush P257

Beaufort

OUR NEW IMPROVED **BATH COLLECTION**

Ultra-strong, superior quality, yet affordable.

After more than 3 years of research and development, with a major investment in the latest technology, equipment and production facilities, ***Eastbrook is proud to introduce Beaufort***, our improved collection of exceptional baths.

Named after the Beaufort wind force scale used by the Met Office for the shipping forecast, each new line is named after a sea region around the British Isles. Relating to the strong winds and fair weather conditions in these regions, the new Beaufort collection combines the lightness and warmth of acrylic with the strongest and best insulating materials available, to deliver the perfect bath.

With many of us spending more time at home than ever before, bathing and its restorative contribution to wellbeing and relaxation is ever more relevant. Now is the time to invest in a superior bathing experience with a new Ultra-Strong Beaufort bath. It will revitalise your bathroom space and provide the warmth and comfort you need for that long therapeutic soak.

Storm Proof. 5mm.

Beaufort

Ultra Strong. Ultra Warm.

Beauforté

Eastbrook has sold over a million baths. Through working closely with showrooms, plumbers, installers, and end-users, we have developed a thorough knowledge about what people want from their bath. The Beaufort range is the culmination of our technical and market experience combined with our practical knowledge and understanding of what a bath fitter requires.

Following a comprehensive research study, we established there was a market need for a quality acrylic bath range with Ultra-Strong attributes yet positioned at an affordable price point. This resulted in a major investment with leading UK bath manufacturer Hartford Holdings Group. Together we have developed a dedicated UK production facility for the manufacture of our affordable but luxurious 5mm and Ultra-Strong Beauforté bath collection. These are available in a wide choice of bath designs and size options to suit every bathroom space.

The Beaufort bath collection continues to build on Eastbrook's hard-won reputation for exceptional products, exceptional stock, and exceptional service.

A Wave Of British Quality That Lasts

MADE IN THE UK

BEST IN CLASS MANUFACTURING

Following the best British manufacturing standards and technical innovation, Beaufort baths are manufactured in the UK with skill and precision.

All Beaufort baths are manufactured from 5mm Asterite sanitaryware grade cell cast acrylic sheet. As a result of the acrylic being cast the colour is all the way through the material rather than a top surface layer. Each bath is vacuum formed on the very latest vertical vacuum forming machines that are capable of zone heating the acrylic prior to moulding to ensure not only an even form every time but an ability to control the material thickness as it is drawn into the tool.

Storm proof standards

Following the finest traditions of British craftsmanship and technical innovation, the Beaufort line is manufactured to extracting standards meeting EN198, CE EN14516:2015 CL1 PH standards. The production moulds have been created using one of the fastest and most accurate Computer Numerical Control (CNC) systems available to machine the best quality solid aluminium bath moulds that have been milled to tolerances of 10 micrometres. Regulated temperature controls and integrated vacuum chambers ensure that each bath formed is done so in regimented conditions to ensure the perfect result every time.

Precision moulding

Our precise mould calibration delivers an impossibly silky finish, arguably the best in the market.

The Difference Is Beaufort

GALE FORCE STRENGTH

The materials from which our Beauforté baths are constructed are incredibly strong and hard wearing. This market leading reinforcement process results in a product that is as strong as a steel bath and almost double the strength of a typical acrylic bath. This result gives us a more rigid bath with no movement or flexibility when you shower or bathe.

MAINTAINS WARMTH

The standard 5mm bath is made storm proof by our proprietary fibre and resin mix. The extra reinforcement in the Beauforté adds an additional layer of insulation to the underside of the bath. This means that the warm bath temperature is retained for much longer. A long relaxing soak can be enjoyed with no need to top up with hot water, less wasteful and good for the environment.

EXTRA SUPPORT

Every Beaufort bath comes with the highest specification support system available. This has been specifically designed to handle the extra weight of the Beauforté reinforced baths but is a standard feature across the whole Beaufort range. It has five adjustable legs for precision levelling and robust wall brackets to guarantee maximum rigidity. As a result, maximum rigidity is achieved with no movement from the bath and no problems with sealing.

THE CHOICE OF THE PROFESSIONAL

Eastbrook has been selling bathrooms for over 30 years. During this time, we have spoken to skilled installers every day and we understand that the professional bathroom fitter requires quality products that are easy and quick to install with no customer call backs. The Beauforté range is backed by a full 30-year guarantee against manufacturing faults. We are confident that you will find it's excellence and longevity unsurpassed in the market today.

Beauforté

Our Ultra-Strong, Gale Force range.

This fantastic collection of superior quality baths includes the Ultra-Strong Gale Force range, which features the added strength and rigidity of Beauforté.

Whatever the size or shape of your bathroom space, there are a wide choice of bath designs to choose from – all of which offer exceptional value for money.

Our Strongest Bath Solution

Beauforté

HOW DOES BEAUFORTÉ WORK?

Beauforté is an intensive process that adds an Ultra-Strong layer of reinforcement to the underside of each bath. This not only greatly increases the strength of the bath but also increases its heat insulation properties. It results in a bath that is as strong as a steel bath and around **45% stronger than a typical acrylic bath**.

A Beaufort bath reinforced with Beauforté is arguably the strongest and most durable acrylic bath available on the market today. This innovative bath solution offers many other practical advantages – quality design, rigidity, longevity, all combined with an exceptionally silky, warm acrylic finish.

The special layered reinforcement process of Beauforté makes these baths suitable for areas of high-use such as hotels, guest-houses, and large family homes. When fitted with the high specification support system, maximum rigidity and a perfect fit is achieved.The standard 5mm Beaufort line is made 'storm-proof' by our proprietary fibre and resin mix. The Beauforté reinforcement on the Gale Force line adds an extra layer of insulation to the underside of the bath; this means the warm bath temperature is retained for much longer. A long, relaxing soak can be enjoyed with no need to top up with hot water, good for the environment and less wasteful.

Suitable for high use facilities

The special layered reinforcement process of Beauforté makes these baths suitable for areas of high-use such as **hotels**, **guest-houses**, and **large family homes**.

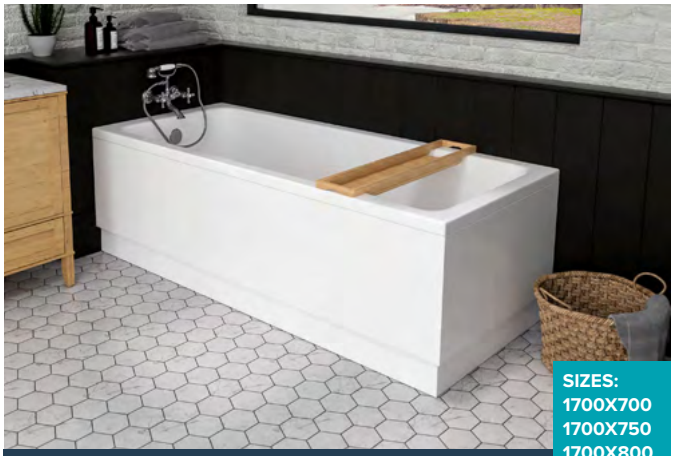

Matt White Baths

Eastbrooks Matt White Baths stand apart, creating a unique and premium look to any bathroom.

Crafted through casting, they boast a smooth matt texture without any coatings or glaze.
This pure white surface has a remarkable ability to absorb and gently scatter light, creating a soothing ambience.

THE NEW MATT WHITE OPTION IS NOW AVALIABLE FOR:

Portland SINGLE ENDED

Situated in the mild depths of the English Channel, the Portland sea region is located along the Jurassic Coast, famous for its geology and striking landforms. Named after this area, the Portland bath is a stunning, minimalist bathing solution, available in both single and double ended variants, with or without grips. Featuring a modern angular design with straight sides and a sloping back, the Portland is surprisingly deep, providing a generous, warm, and relaxing bath.

The Portland is available in a wide range of bath sizes and in a choice of thickness - 5mm acrylic or ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

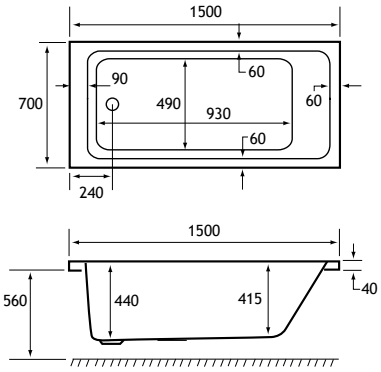

- 24 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Portland SE models
- Sloping back rest for lumbar support

Portland DOUBLE ENDED, SINGLE GRIP

Situated in the mild depths of the English Channel, the Portland sea region is located along the Jurassic Coast, famous for its geology and striking landforms. Named after this area, the Portland bath is a stunning, minimalist bathing solution, available in both single and double ended variants, with or without grips. Featuring a modern angular design with straight sides and a sloping back, the Portland is surprisingly deep, providing a generous, warm, and relaxing bath.

The Portland is available in a wide range of bath sizes and in a choice of thickness - 5mm acrylic or ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 6 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Portland SE models
- Single grips available in 6 colours (Sold separately)

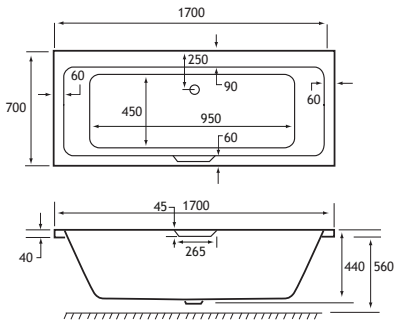

Portland SE TG shown. Grips sold separately.

Portland P-SHAPE

Situated in the mild depths of the English Channel, the Portland sea region is located along the Jurassic Coast, famous for its geology and striking landforms. Named after this area, the Portland bath is a stunning, minimalist bathing solution. Featuring a modern angular design with straight sides and a sloping back, the Portland is surprisingly deep, providing a generous, warm, and relaxing bath.

The Portland P-Shape is available in a wide range of bath sizes and in a choice of thickness - 5mm acrylic or ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 12 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Portland SE models
- Wider curved space at one end for showering

Fitzroy SINGLE ENDED

The sea region of Fitzroy lies off the northwestern coast of Spain, which boasts a picturesque landscape characterised by its jagged coastline, rugged cliffs and stunning beaches. If you're looking to add a unique touch to your bathroom, the Fiztroy bath range is just what you need. The design features a corner shelf for taps or bathroom accessories.

The Fitzroy has narrow, minimalist edges that blend seamlessly with the overall design of the bath, giving your bathroom a modern and stylish look.

This bath is offered in both left-hand and right-hand versions, making it perfect for any bathroom layout.

PRODUCT FEATURES

- 4 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Fitzoy models
- Wide corner shelf for taps or bathroom accessories

Fitzroy SE Left Hand shown with Ledwell bath filler 79.1027

Biscay DOUBLE ENDED

Located in the curved gulf where the west coast of France meets the north of Spain, the Biscay sea region is notorious for some of the fiercest weather conditions of the Atlantic Ocean. The robust double ended Biscay bath is reminiscent of this region, with a distinctive rounded end corner surrounded by a 40mm deep ledge. This space efficient bath provides a large bathing area and is 440mm at its deepest point, ensuring a luxurious, comfortable soak.

The Biscay is available in left or right-handed bath variants, and in a choice of 1600x725mm, 1700x750mm, and 1700x800mm. The range is offered in both 5mm acrylic and ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

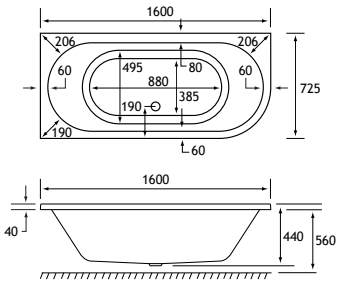

- 12 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Biscay DE models
- Curved space saving style with one piece panel

Biscay Reef DE shown with Ledwell bath filler 79.1028

Biscay SINGLE ENDED, STRAIGHT EDGE

Located in the curved gulf where the west coast of France meets the north of Spain, the Biscay sea region is notorious for some of the fiercest weather conditions of the Atlantic Ocean. The robust double ended Biscay bath is reminiscent of this region, with straight end corners surrounded by a 40mm deep ledge. This space efficient bath provides a large bathing area and is 440mm at its deepest point, ensuring a luxurious, comfortable soak.

The Biscay is a luxury single ended bath which can be matched with square or rounded taps.
It's available in sizes 1700x700mm, 1700x750mm, and 1800x800mm. The range is offered in both 5mm acrylic and ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 6 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all SE Straight Edge models
- Square edge style bath with great top surface area

Rockall SINGLE ENDED

The Rockall sea region is located off the west coast of Ireland and is where the largest wave ever recorded by a shipping vessel was encountered. The Rockall bath is evocative of this region, in a functional, sturdy, yet stylish design. Comfortably proportioned, this single-ended bath features a modern, angular look and perfectly complements the latest square profile sanitaryware and taps. The back end of the bath is curved for comfort and the silky finish gives it a luxurious appeal.

The Rockall is available in a wide range of bath sizes and in a choice of thickness - 5mm acrylic or ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 22 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Rockall SE models
- Sloping back rest at one end for lumbar support

Rockall SINGLE ENDED, TWIN GRIP

The Rockall sea region is located off the west coast of Ireland and is where the largest wave ever recorded by a shipping vessel was encountered. The Rockall bath is evocative of this region, in a functional, sturdy, yet stylish design. Comfortably proportioned, this single-ended bath features a modern, angular look and perfectly complements the latest square profile sanitaryware and taps. The back end of the bath is curved for comfort and the silky finish gives it a luxurious appeal.

The Rockall is available in a wide range of bath sizes and in a choice of thickness - 5mm acrylic or ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

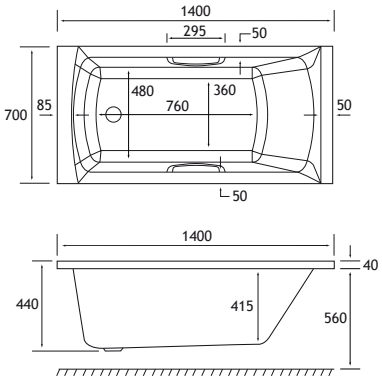

- 22 models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Rockall SE models
- Twin grips available in 6 colours (Sold separately)

Malin SINGLE ENDED

Malin is the sea region off the rugged Irish north coast, renowned for its strong sea winds, majestic landscapes, and high tides. The strength and clarity of the Malin bath is suggestive of this region, with its minimalist, clean lines, and gently curved back rest support. Featuring narrow ledges on 3 sides, the ultra-modern design of the Malin offers a larger internal bathing space than a deeper-sided bath of the same dimensions.

The Malin is available in both single-ended and double-ended bath variants and in a wide choice of sizes. The range is offered in both 5mm acrylic and ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 16 SE models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Malin SE models
- Modern thin rim for maximised bathing space

Malin DOUBLE ENDED

Malin is the sea region off the rugged Irish north coast, renowned for its strong sea winds, majestic landscapes, and high tides. The strength and clarity of the Malin bath is suggestive of this region, with its minimalist, clean lines, and gently curved back rest support. Featuring narrow ledges on 3 sides, the ultra-modern design of the Malin offers a larger internal bathing space than a deeper-sided bath of the same dimensions.

The Malin is available in both single-ended and double-ended bath variants and in a wide choice of sizes. The range is offered in both 5mm acrylic and ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

- 14 DE models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 440mm depth on all Portland SE models
- Modern thin rim for maximised bathing space

Shannon L-SHAPE

The robust but comfortable single ended Shannon L-Shape Shower Bath is reminiscent of the Malin region, with its minimalist, clean lines along with a wider space at one end of the bath for showering.

This space efficient bath provides a deceptively large bathing area and is 400mm at its deepest point, ensuring a luxurious, comfortable soak.

The Shannon L-Shape Shower Bath is available in left or right-handed bath variants, and in a choice of 1500 x 850mm and 1700 x 850mm. The range is offered in both 4mm acrylic and ultra-strong Beauforté, which significantly extends the life of the bath.

PRODUCT FEATURES

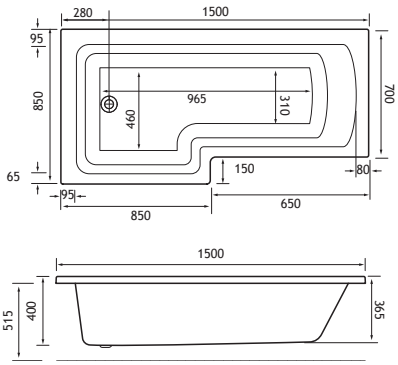

- 8 models
- Each available in: 4mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings
- 400mm depth on all Shannon SE models
- Wider space at one end for showering

Lundy OFFSET CORNER

Located off the Southwestern coast of England, the Lundy Sea region includes some of Great Britain's finest Coastlines. Stretching from the shores of Cornwall, Devon, and Somerset; to the westerly tip of Wales. Designed for luxury bathing within a limited space, the Lundy can be installed in the corner of your bathroom so you can relax in luxurious comfort in a smaller bathroom space.
Within the bath is an integrated seating area that provides more options to use this bath to the full. This space efficient bath provides a large bathing area and is 420mm at its deepest point, ensuring a deep, comfortable soak.

Available in left & right-handed variants of 1500x1040. The Lundy is offered in both 5mm acrylic & ultra-strong Beauforté, which significantly extends the life of the bath.

Left Hand shown

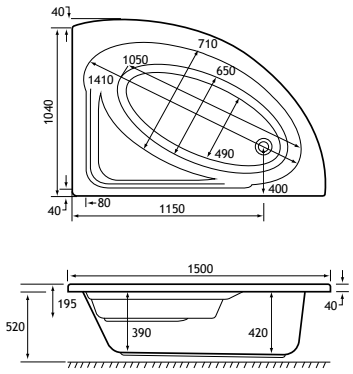

PRODUCT FEATURES

- 4 Offset Corner models
- Each available in: 5mm Acrylic & Ultra Strong Beauforté
- Supplied without pre-drilled tap holes or waste fittings.
- 420mm depth on all Offset Corner models

Humber FREESTANDING

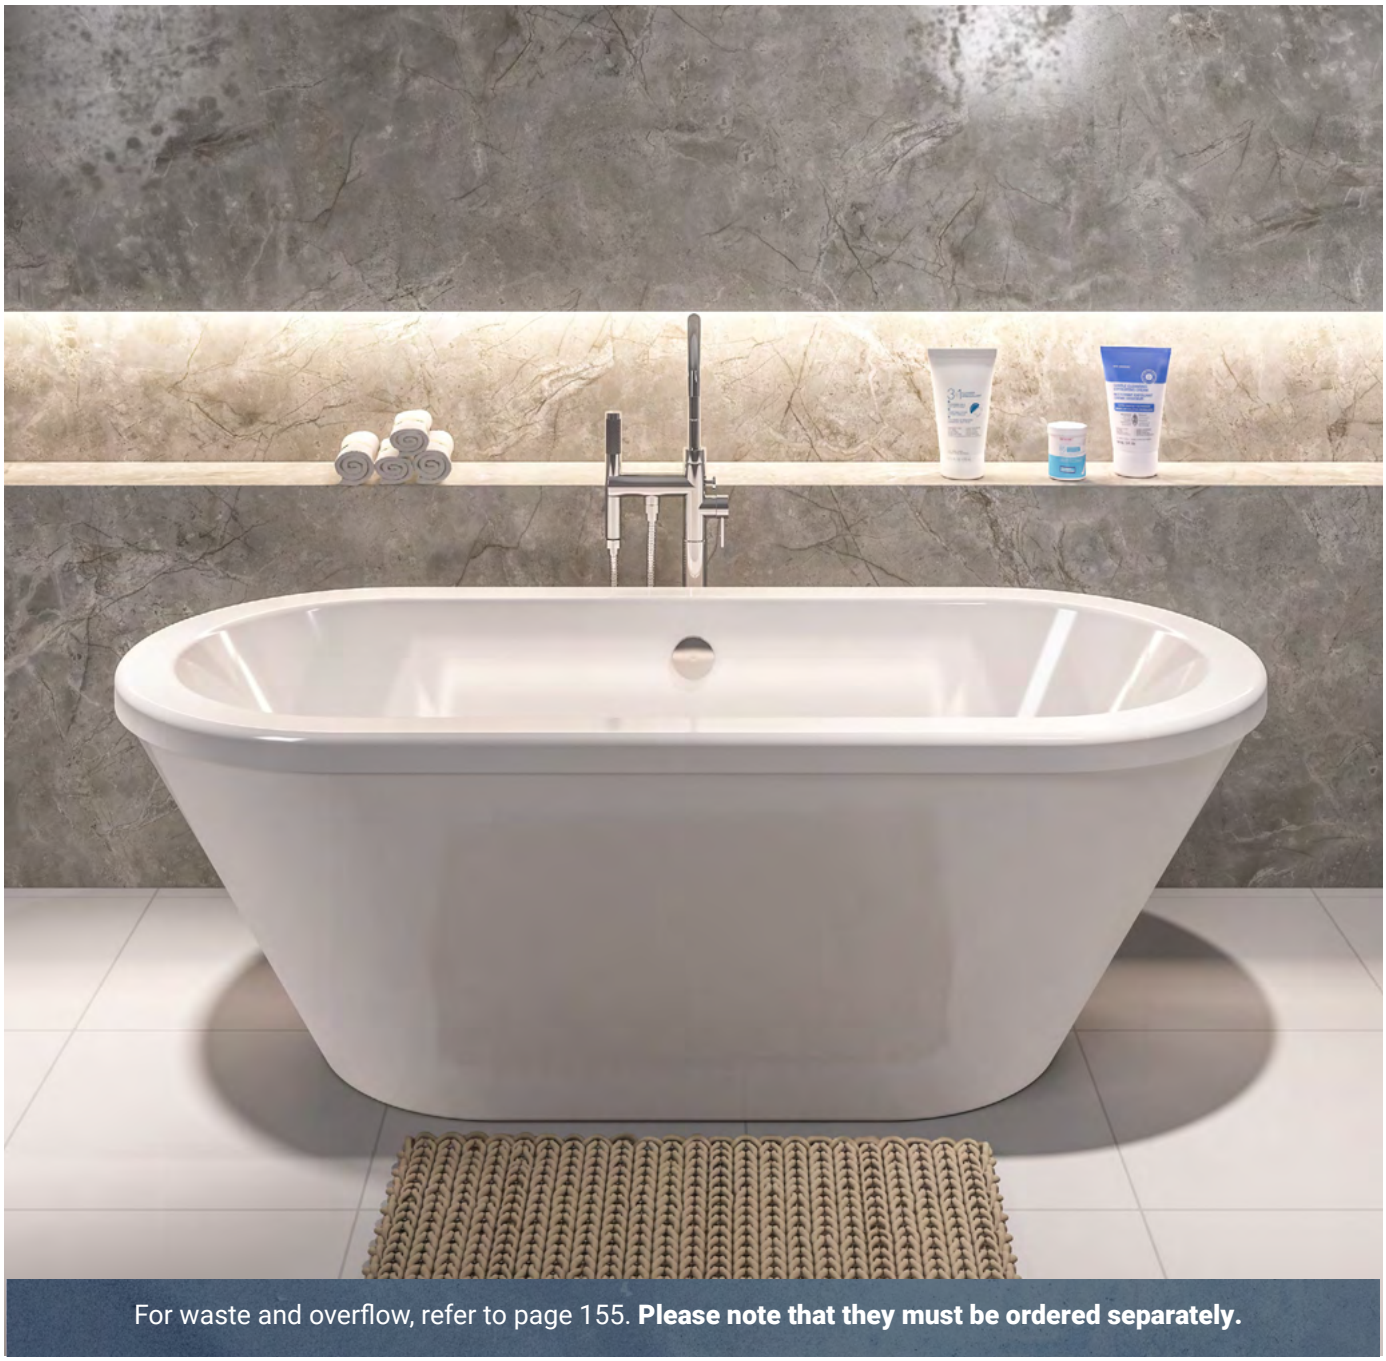

The Humber is the largest coastal plain estuary on the east coast of Britain and drains a catchment area of 20% of the total land surface of England. Classified as a macro-tidal estuary because of the large tidal ranges, at its widest point the Humber Estuary is 14km across.

Named after this significant geographical area, the Humber bath offers a wonderful bathing area, giving comfort and space for all. Available as a double ended freestanding bath, the engineered white skirted option has straight sides yet a natural incline at each end to give maximum relaxation to all bathers.The Humber is available in two sizes 1800x800 and 1700x755.

PRODUCT FEATURES

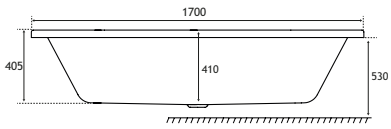

- 2 models
- Available in:
  4mm Acrylic Beaufort
- Supplied without
  pre-drilled tap holes or
  waste fittings
- 410mm depth on all Humber
  Freestanding baths
- 25 years warranty
- Waste and overflow items
  Sold Separately

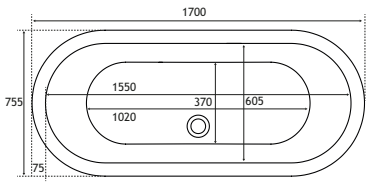

For waste and overflow, refer to page 155. **Please note that they must be ordered separately.**

Whirlpool Baths

A Whirlpool system transforms your Beaufort bath into a truly relaxing space to escape reality and unwind from the comfort of your own home.

At Eastbrook Bathrooms we offer the **Aquair Whirlpool bath and Airspa Systems** for specific bath ranges. The jets feed water into the bath at pressure to offer an invigorating spa like bathing experience.

NEW! Whirlpool Fitting Colours

About Aquair:
Aquair are a family-owned business that uses koller systems in assembling their wellness systems. Koller has specialised in water and whirlpool systems for almost 45 years. It was one of the first enterprises in the world to apply Whirlpool technology in bathtubs.

Pump Information:
The pumps used on the Eastbrook Whirlpool Bath System have a line voltage of 220-240V 60Hz, input of 0.85 HP 0.65KW, output of 0.45KW and a flow rate of 210 litres per minute. **2 Year Warranty on all systems.**

RIGOROUSLY TESTED FOR DAILY USAGE

System Benefits:
- Powerful, reliable and silent pumps
- Anchored securely on the adjustable legs
- Compact dimensions allow for space saving installation
- Robust and durable in design

Safety & Testing:
Eastbrook whirlpool baths are one of the only whirlpool systems in the UK that have an electrical safety testing certification that complies to British standards and tests. Each system is tested for Electro Magnetic Frequency and Electro Magnetic Compatibility to ensure it complies with certification standards. **Tested and certified to EN 12764:2004+A1:2008**

High Quality Components

The whirlpool bath components are produced by specialists in whirlpool design and technology. They are fitted with flexible pipe work, which is smooth and doesn't retain water but strong enough to withstand any sagging.

Quality Assured

Each whirlpool bath is factory tested and approved and for absolute peace of mind we test each one under normal working conditions for 30 minutes and then a 30 minute standing period.

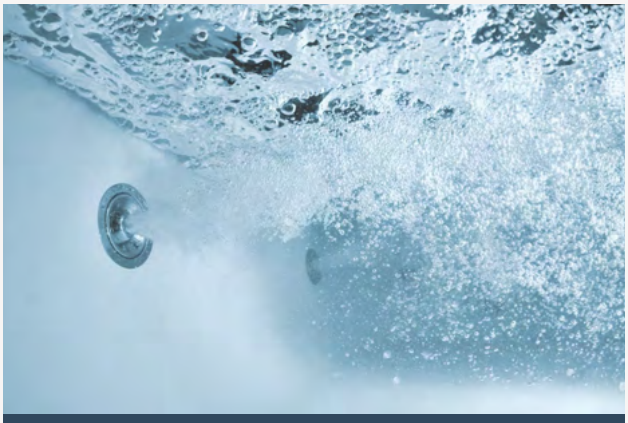

All our whirlpool systems include 'child safety suction' and are tested to BS EN 12764:2004+A1:2008.

Whirlpools

Hand Finished With Care

We have a dedicated factory with passionate personnel to fit our systems. Staff are trained at the facilities to master specific processes and have their own service van fleet to give our customers pieces of mind.

Factory Installed & Tested

Each whirlpool bath is built in-house to manage volumes and achieve the best quality possible. Independent water stations have been installed to guarantee customer a one hour testing period before purchase.

Bespoke Whirlpools

Pages: 158 & 167

For those want to create their own unique bathing experience that's perfect for your body. Your bespoke creation will be hand-built using high quality materials, by our teams of skilled technicians.

Bespoke Whirlpool Bath Guide

Approximately 8 Weeks Lead Time (from confirmation of order)

1. **Select your Beaufort bath**
2. **Select one of the bespoke Whirlpool, Airspa or Combination systems.**
3. **Consider adding one or more of the additional options to complete your relaxation experience (page 166)**
4. **Add the cost of your bath, system, and additional options together to get the total cost.**

Additional Options

DESCRIPTION	CODE	£ EX VAT	£ INC VAT
Single Colour change LED Light	42.4008	345.00	414.00
Ozonator	42.4009	214.00	256.80
In Line Water Heater	42.4011	686.00	823.20
Bluetooth sound system	42.4012	1521.00	1825.20
Electronic Upgrade	42.4013	391.00	469.20

Single LED Light
One LED light that can change between seven colour settings. **Colours:** Green, Cyan Blue, Dark Blue, White, Red, Magenta & Yellow.

In Line Water Heater
Heat the water during the whirlpool cycle to improve relaxation and bathing time by compensating for natural heat loss.

Ozonator (not suitable for Airspa)
Removes harmful bacteria during the whirlpool cycle for added hygiene.

Bluetooth Connection
Play music through your bath by connecting it via Bluetooth music streaming devices.

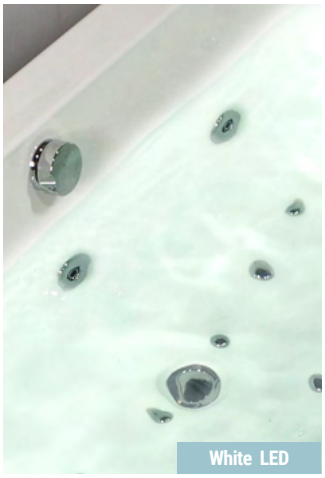

Electronic Upgrade
Removes pneumatic switch and replaces it with an electronic control pad (incudes low water sensor).

CONTRACT

Baths

High Quality | UK Made | Easy Fit

Eastbrook's range of quality baths for the bathroom with a budget.

The increasing demand for cost effective bathing solutions lead our team to introduce this new product line.

Contents

Henbury Range 176-177

Henbury Range

HENBURY CONTRACT BATHS

The Henbury range is Eastbrook's solution to the increasing demand for quality baths on a budget.

With a curved back rest for comfort and the option of grips for added security, the Henbury is designed to provide you with a comfortable and enjoyable bathing experience.

The Henbury Range is available in three sizes. 1500x700, 1600x700 and 1700x700 with an added option of chrome grips.

High Quality | UK Made | Easy Fit

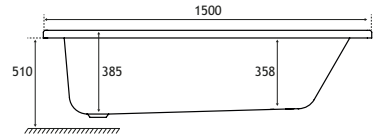

PRODUCT FEATURES

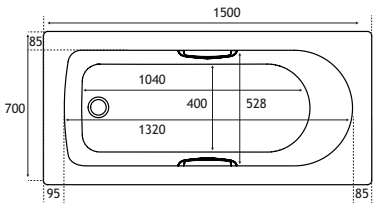

- 6 models
- Each available in: 3mm Standard or 3mm Twin Grip
- Supplied without pre-drilled tap holes or waste fittings
- 385mm depth on all Henbury models
- Square edge style bath with great top surface area

Sherwood Bath Panels

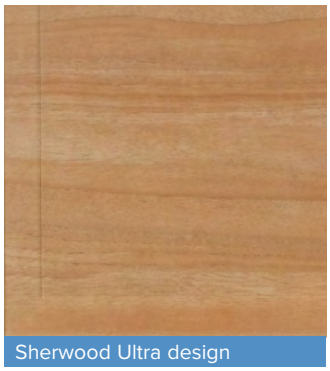

SHERWOOD™ BATH PANELS

A comprehensive quality range of wood effect bath panels, seats and vanity units. The latest vinyl wrapped technology is used to produce an extremely tough panel with colour matching guaranteed throughout the co-ordinated products.

Sherwood Original design

Sherwood Classic design

Sherwood Diamante design

Sherwood Ultra design

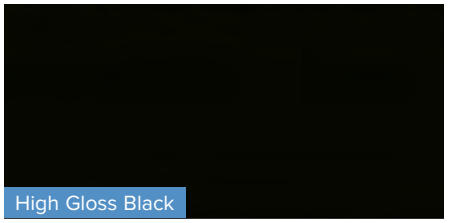

Natural Oak

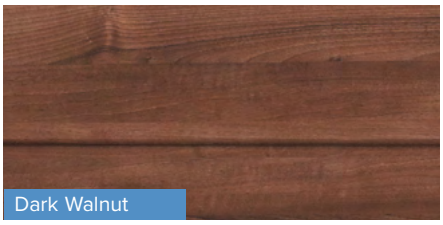

Light Walnut

Beech

High Gloss White

White Ash

High Gloss Black

Dark Walnut

Sherwood is produced in four designs:

Sherwood Original with a traditional twist

Sherwood Classic for a more contemporary statement

Sherwood Diamante - a simple and modern design

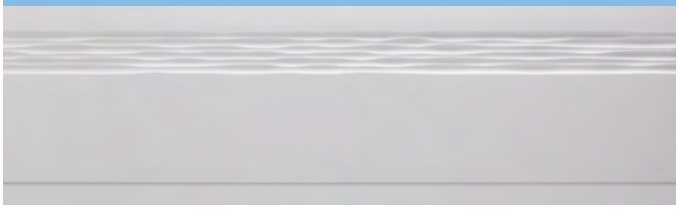

Sherwood Ultra - a real gem in design combining both the Original and Classic values

Universal 18mm seats are available to complement, complete with a high quality bar hinge or the soft close hinges.

All items are vinyl-wrapped MDF.
Refer to style pages for finish availability.

Colours are subject to the limitations of the printing process. Colour samples available on request.

Jollytronic & Concealed Cisterns

ELECTRONIC ECO FLUSH

The hygienic, no touch flushing system with Its motion-activated infrared mechanism allows for hygienic, contact-free operation, while offering water-saving options: a quick hand wave for half a flush and a 4-second hold for a full 6L flush.

BUILT IN SENSOR
This system flushes for as long as the sensor is covered which allows the user to flush the toilet for just the right length of time needed to clear.

PROVEN PERFORMANCE
Endurance tested to 200,000 flush cycles, the TOUCHLESS system ensures durability and reliability.

Pneumatic Mechanism
Tried and Tested

As part of our product testing, greater functionality development and compliance certification, we test our products for a simulated lifetime of use. We were looking to measure the wear and tear on this cistern and fittings based on 10 flushes a day for 30 years which is 109,500 flushes. This product has sailed past this figure and now is over 360,000 flushes!!

Bath Panels

SHERWOOD BATH PANELS

A comprehensive quality range of wood effect bath panels, seats and vanity units. The latest vinyl wrapped technology is used to produce an extremely tough panel with colour matching guaranteed throughout the co-ordinated products. Universal 18mm seats are available to complement, complete with a high quality bar hinge, or the new soft close hinges.

Sherwood is produced in four designs:

Sherwood Diamante Design

Sherwood Diamante - a simple and modern design

Sherwood Classic Design

Sherwood Classic for a more contemporary statement

Sherwood Original Design

Sherwood Original with a traditional twist

Sherwood Ultra Design

Sherwood Ultra - a real gem in design combining both the Original and Classic values

All items are vinyl-wrapped MDF. Refer to style pages for finish availability.

Colours subject to the limitations of the printing process. Colour sample available on request.

VOLENTE BI-FOLD DOOR

Luxurious, easy to clean, contemporary framed enclosure in 6mm tempered safety glass, height 1850mm.

FEATURES

- 10 Year manufacturer's guarantee*
- Easy clean glass
- Concealed fittings
- Trays available to match
- 3 side installation possible
- 6mm Tempered safety glass
- Polished Chrome

*With conditions

When fitting with 2 side panels (as illustrated above) you will need to select the next smallest door size from your selected tray. For example: for a 900mm tray you will need an 800mm door. If the difference between the tray and the door is 100mm you will also need TWO extension profiles. Please call 01452 317890 for assistance if you are in any doubt.

Valliant Walk-In

Tempered Glass - 8mm

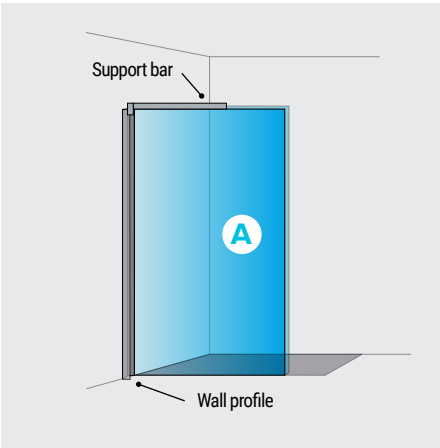

1950 mm High

VALLIANT - TYPE A

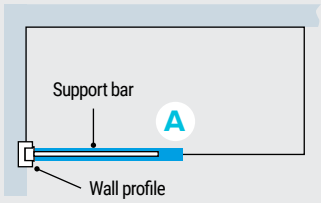

Type A panels are fixed to the wall with a wall profile, the panel also comes with one wall support bar.

FEATURES
- 10 Year manufacturer's guarantee*
- Easy clean glass
- 1950mm Height
- Trays available to match
- 8mm Tempered safety glass

*With conditions

Panel A
Comes with 1 wall profile and 1 support bar.

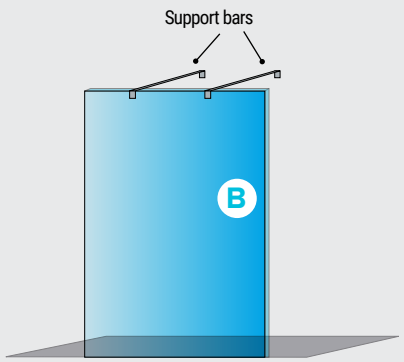

Panel A - Example
58.356 800mm side panel including support bar and wall profile (A) See page 544 for details.

VALLIANT - TYPE B

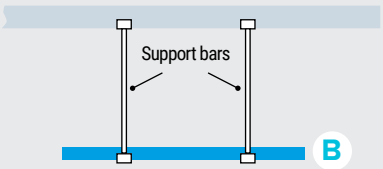

Type B panels can only be used in a walk-through situation, the panel is a single pane of glass and comes with two wall support bars only. This can be used with two type C, 250mm panels, which contain a corner profile so they can be attached to the Type B panel. They can both be installed with a tray or in a wetroom situation.

FEATURES
- 10 Year manufacturer's guarantee*
- Easy clean glass
- 1950mm Height
- Trays available to match
- 8mm Tempered safety glass

*With conditions

Panel B - Comes with 2 support bars.
(No wall profile supplied).

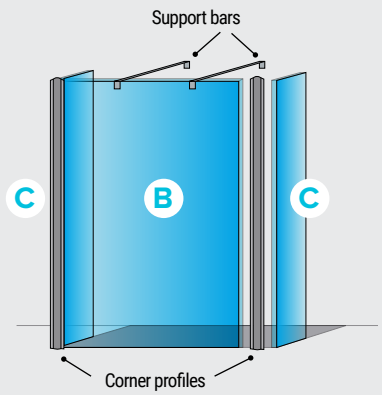

Panel B - Example
58.362 1200mm walk-in panel with two support bars (B), see page 545 for details.

VALLIANT - TYPE C

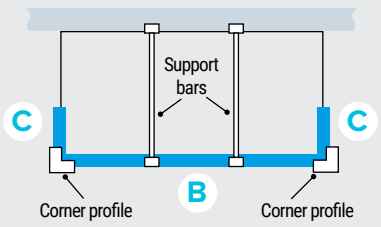

Type C is a single pane of glass with a corner profile, this can only be attached to another pane of glass (no wall support bar is provided with Type C). Type A/B & C can be used together to create different walk-in situations as illustrated, see page opposite and below. However please note the wall support bar from Type A/B can be used on either pane of glass to suit your requirements.

FEATURES
- 10 Year manufacturer's guarantee*
- 1950mm Height
- Easy clean glass
- 8mm Tempered safety glass

*With conditions

Panel C - Comes with 1 corner profile (No wall profile supplied), shown with Type B panel.

Panel C - Example
58.362 1200mm walk-in panel with two support bars (B), 2 x 58.363 250mm end panels (C), see page 545 for details.

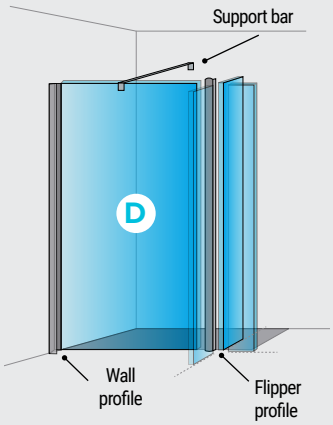

Valliant Walk-In

VALLIANT - TYPE D

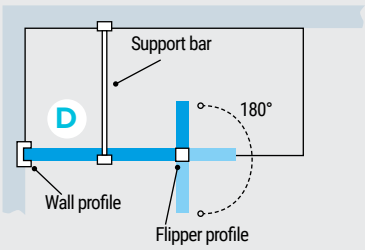

Type D contains a panel of glass with a wall profile, plus a 300mm flipper which is hinged and rotates 180 degrees. Type D must be fixed to the wall, it cannot be fixed to another pane of glass.

FEATURES
- 10 Year manufacturer's guarantee*
- Easy clean glass
- 1950mm Height
- Trays available to match
- 8mm Tempered safety glass

*With conditions

Panel C - Comes with 1 wall profile, support bar and a 300mm flipper.

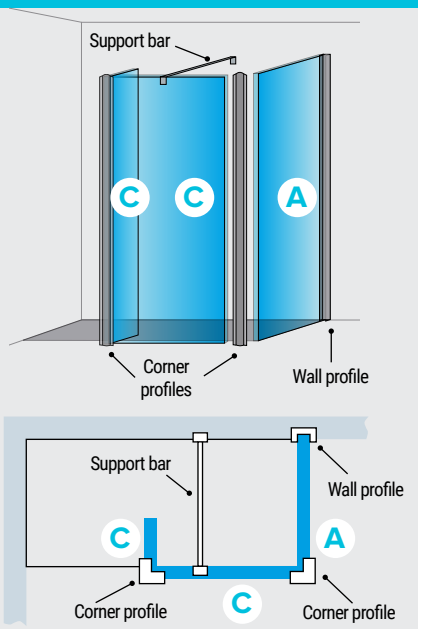

Panel C - Example
58.351 800mm front panel with wall profile and 300mm flipper (D), see page 546 for details.

Comes with 1 corner profile.

A&C Combination

Panel A
Comes with 1 wall profile and 1 support bar.

A&C Combination

Valliant Walk-In

VALLIANT - TYPE A&C - COMBINATION

Application 3

58.357 900mm side panel including support bar and wall profile (A), 58.363 250mm end panel with corner profile (C)

Type A panels are fixed to the wall with a wall profile, the panel also comes with one wall support bar. Type C is a single pane of glass with a corner profile, this can only be attached to another pane of glass (no support bar is provided with Type C). Type A & C can be used together to create different walk-in situations as illustrated - and can also be installed with a 180 degree flipper kit retrospectively. However please note the wall support bar from Type A can be used on either pane of glass to suit your requirements.

Flipper kit can be installed retrospectively.

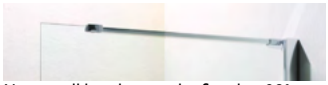

Luxurious, easy to clean, contemporary framed enclosure in 6mm tempered safety glass, height 1850mm.

FEATURES

- 10 Year manufacturer's guarantee*
- Easy clean glass
- 6mm Tempered safety glass
- Clear glass - also available in frosted glass

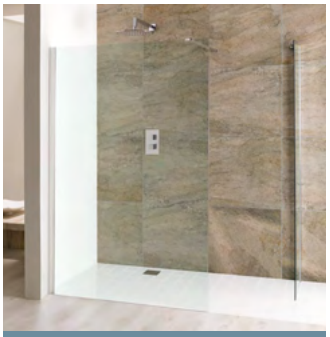

*With conditions

*When fitting with two side panels one of the standard Volente side panels is used with one of the Volente walk-in end panels. The front panel may have to be downsized to ensure there is enough opening on the walk-in end panels. For further advice please contact our technical department on 01452 317 890.

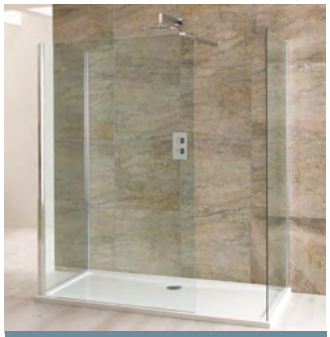

Note: wall bracket can be fitted at 90° or parallel to the glass.

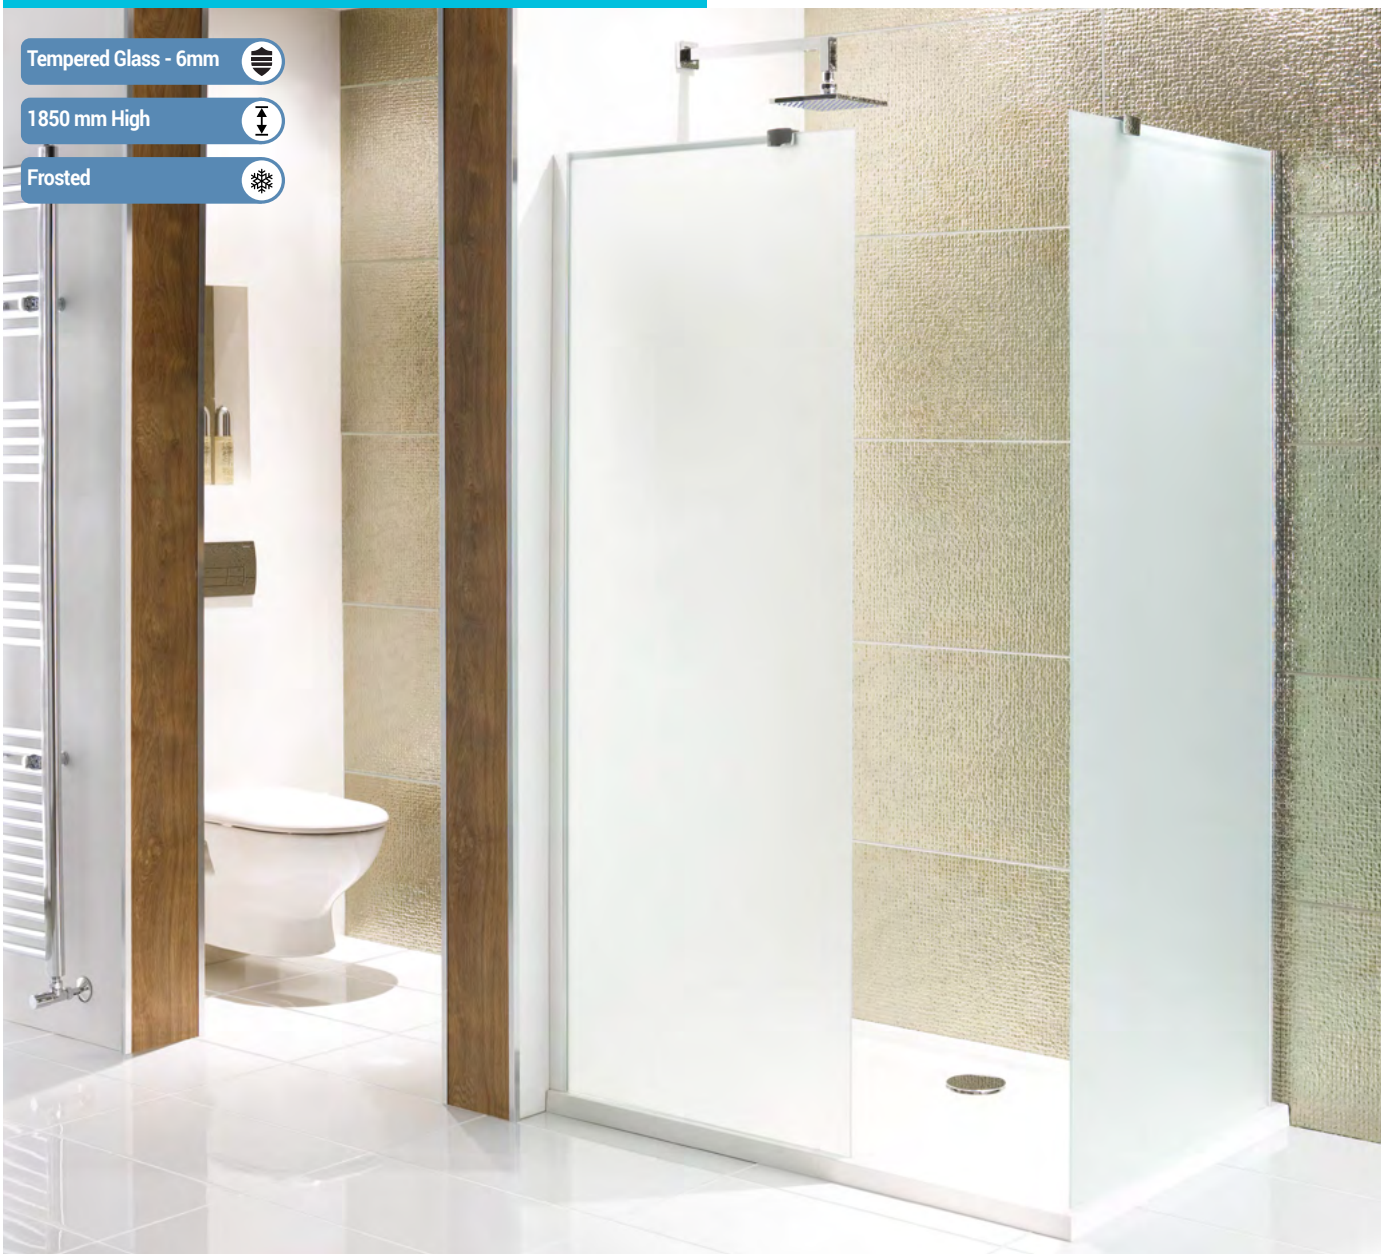

300mm panel allows greater access

Can be fitted with two side panels as shown*

Biava Wet Floor System

BIAVA WET FLOOR

This product enables you to have a bathroom with a showering area at the same level as the rest of the room giving the benefit of complete level access. It is especially helpful for wheelchair users, the elderly and children. This affordable system incorporates the optimum gradient, drainage and waterproofing all in one package.

The product is able to incorporate benefits such as stylish and elegant designs, flexibility, ease of cleaning, level access, low maintenance with an amazing wow factor and rarely takes more than half a day to install. This proven system comes from a manufacturer with over 300,000 installations, available now through the Eastbrook Biava Brand, with its excellent backup and customer service. It will complement the eastbrook range of walk-in panels.

Frequently asked questions about the floor former:

What is a floor former?

A floor former is often mistaken for a shower tray but it is not, in fact it is a preformed floor base with a built in gradient. Its purpose is to offer a simple means of forming the gradient within the construction of either existing or new floors. On completion the floor former will be completely covered with tiles, with only the Stainless Steel Grate visible.

Does it have to be sunk into the floor?

The floor former has been designed to be recessed to a flush finish with the prepared floor. In circumstances where the floor cannot be breached the entire floor can be raised to accommodate the floor former.

How thick is it?

The floor former is 30mm thick.

Is it available in different sizes?

There are 4 different sizes:
1000mm x 1000mm
1200mm x 900mm
1400mm x 933mm
1600mm x 1067mm

Does it need to be fitted level?

It is extremely important that the floor former is fitted level. This is easily checked by placing a spirit level on the perimeter of both sides of the former. Because the gradient is built into the floor former it will only function properly if it is level around its perimeter.

How is the floor drain fitted?

The gully flange fits into the rebate making the top of the gully flange a flush fit with the surface of the floor former.

Is the gully cleanable from the top?

Yes, the gully is accessible from above meaning it can be cleaned without removing the entire drain. This is achieved by the removal of the grating or covers, followed by the dip tube, allowing easy access to the sump of the trap for cleaning.

What about different thicknesses of tiles?

To compensate for different thicknesses of tile the gully has a height adjustable ring which can take a tile thickness of between 6mm-16mm. Also included is a 10mm extension ring to increase the height up to 26mm if required.

What if there is a joist in the way of the gully?

The former has been designed with the waste off centre so that if a joist is in the way of the gully the floor former can be rotated either 90 or 180 degrees, which in most cases will reposition the gully away from the joist. A joist must never be notched or cut to allow installation of the trap.

Can it be fitted in timber floors?

Yes, the floor former is designed to be installed into timber floors. Please refer to the full installation instructions.

Can it be fitted in screeded or concrete floors?

Yes, the floor former can be installed into screeded or concrete floors. Please refer to the separate installation instructions available on request. Special care should be taken in this instance to avoid any obstructions such as cables or pipe work installed under the floor.

Can it be used with underfloor heating?

Yes, it is suitable for all types of underfloor heating.

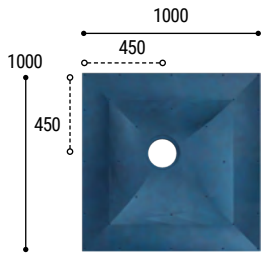

Biava Wet Floor System

THE EASTBROOK BIAVA WET FLOOR SYSTEM CONSISTS OF:

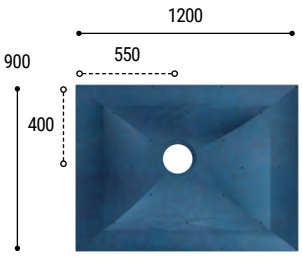

The Biava Floor Former

There are several sizes of lightweight easy-to-install floor formers with 100% rigidity and a consistent 1:40 gradient. These formers feature a unique four way floor design giving the benefits of clear linear finish and very high flow rate of water to the drainage waste. They are also designed to fit on both timber joisted floors and concrete floors

*Floor formers cannot be cut down			

DRAINAGE WASTE

The shower waste drainage system is fully adjustable and flexible for those awkward joist situations that add so much installation time with other systems.

The waste is adjustable to take tiles from 6 - 26mm.
There is also an alternative solution for Vinyl floors.

Waste efficiency decreases when shower head is positioned directly above waste.

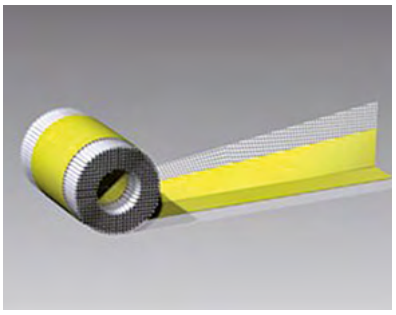

NB Drainage waste is included with the Biava floor former.

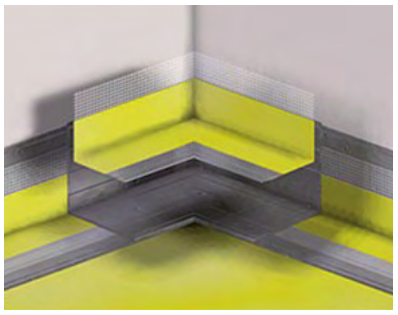

BIAVA 5M² MEMBRANE/TANKING KIT

The waterproof tanking kit is quick and easy to install and acts as a key for the tile adhesive as well as being the water proof barrier. Can be bought and used separately to waterproof any bathroom without the need to use a floor former. With some quick set adhesives, tiling can begin almost immediately.

FEATURES
- Quick & easy to install
- 5 metre kit includes joint tape, 4 internal corners and 1 external corner
- 10 year warranty

Quadrant Trays

Safety
The Vanguard's outer white nanocoat surface is created with a soft grip texture; purposely designed for safety whilst showering.

Quality
With just one touch you will feel the nature inherent within the Vanguard Tray ranges Mineral Composite. This material combination attains a whole new level of durability withinthe bathroom enviroment:

- 75% Marble Stone
- Compressed Resin Bond
- Nanocoat External Layer

By having the external white nanocoat surface, the Vanguard range has an insusceptibility to bacterial growth and absorption of water. This ensures a long lasting quality and ease of care

Mineral Composite Profile

Vanguard Trays

Design

The Mineral Composite enables an extensive range of shapes to be created and frees up the imagination of designers. With a 0-to-3mm tolerance and a minimum radius of 2mm, the Vanguard is precise by its very nature. Effortlessly elegant.

30MM HEIGHT SLIMLINE DESIGN

SOFT GRIP TEXTURED BASE

*Subject to cleaning condition
*Conforms to BS7976

VANGUARD 25 SHOWER TRAYS

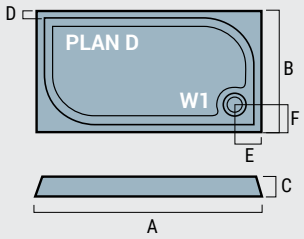

Square Trays

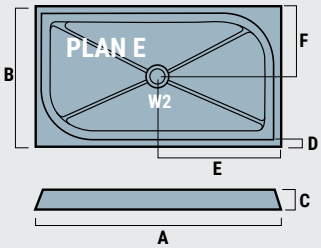

Rectangular Trays

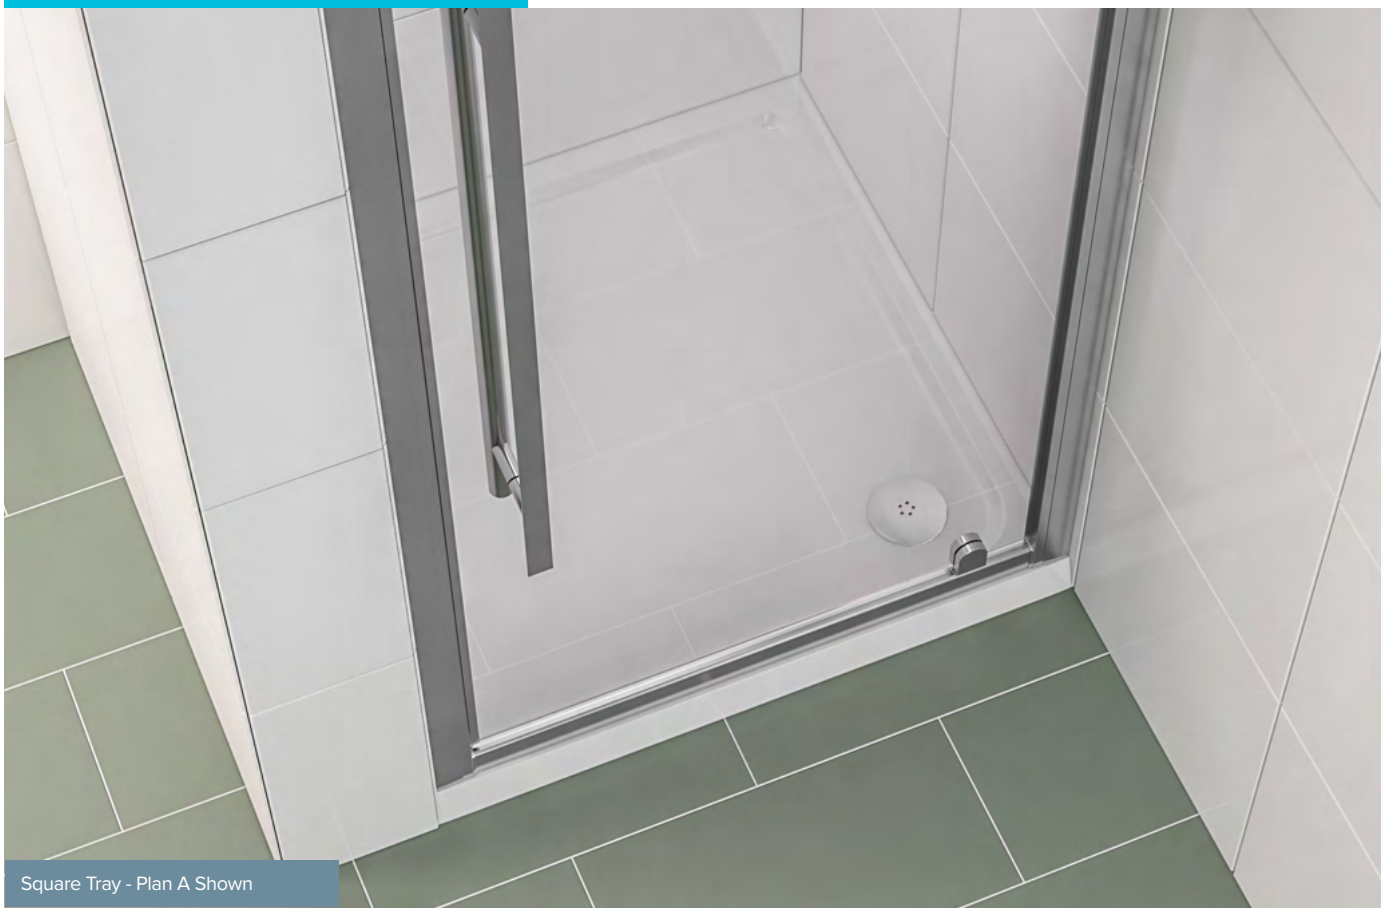

Vantage Trays

VANTAGE SQUARE TRAYS

Square Tray - Plan A Shown

FEATURES

- All trays have a flat underside making installation and levelling even easier.
- Slimline, at 40-45 mm height they're among the sleekest on today's market.
- All trays are acrylic capped and constructed from a polyurethane resin mix.
- Light stone resin trays allows for easier handling and fitting, while still maintaining the strength of conventional trays.
- Adjustable legs (within the leg kit pack) supplied with ultra-strong self adhesive pads.

Vantage Trays

VANTAGE QUADRANT TRAYS

Quadrant Tray - Plan E Shown

FEATURES

- All trays have a flat underside making installation and levelling even easier.
- Slimline, at 40-45 mm height they're among the sleekest on today's market.
- All trays are acrylic capped and constructed from a polyurethane resin mix. Perfect for a modern and contemporary wet room design.
- Up to 50% lighter than conventional stone resin trays allowing for easier handling and fitting, while still maintaining the strength of conventional trays.
- Adjustable legs (within the leg kit pack) supplied with ultra-strong self adhesive pads.

Standard PVC Panelling

WHITE STANDARD PVC CEILING / WALL PANELLING

Ideal for kitchens, bathrooms and showers

- New 3m long panel in white
- 250mm wide tongue and groove panels
- Wetwall panels for all showers
- Suitable for wet and dry areas
- Suitable for both walls and ceilings
- Easy installation, no wet trades required
- Full range of accessories
- Hygienic wipe clean surface
- Standard PVC Hydropanels and profiles are 2400mm long (Profiles can vary by up to 2%)
- Non-porous and mould free
- H-join decor strips available in silver and gold
- Virtually maintenance free
- No tiling or grouting to discolour or leak
- Excellent insulation and sound proofing
- Class 1 fire rating
- Approx 5mm thickness

White is subject to the limitations of the printing process, and should only be used as a guide to colour matching.

NB: As with all decorative products differences in shading can occur between batches. Please ensure you order enough to complete the job in hand.

PVC Widepanel

Hardwearing PVC surface suitable for all areas domestic and commercial. Ideal for walls and ceilings in bathrooms, showers and kitchens

- 1000mm wide tongue and groove Widepanels
- Wetroom Widepanels for all showers
- Suitable for wet and dry areas
- Suitable for both walls and ceilings
- Easy installation, no wet trades required
- Non-porous and mould free
- Full range of accessories
- Hygienic wipe clean surface
- Virtually maintenance free
- PVC Widepanels are 2400mm high by 1000mm wide
- Profiles are 2400mm long (Can vary by up to 2%)
- H-join decor strips available in white and silver
- No tiling or grouting to discolour or leak
- Excellent insulation and sound proofing
- 10.5mm thickness
- Class 1 fire rated for commercial and domestic installations
- Light and easy to fit
- 100% waterproof. No water can be drawn into the core
- Made of recyclable PVC
- Is strong and rigid
- Accessories can be screwed securely onto PVC Widepanels

Panel instructions page 548-549

Hydropanel Instructions

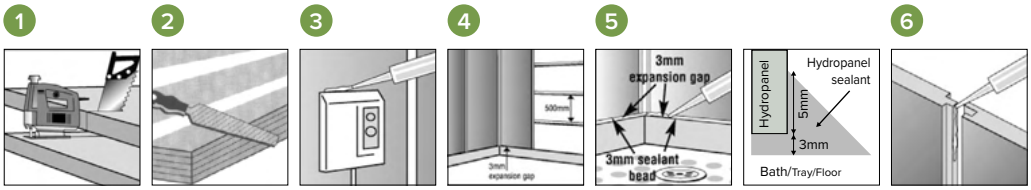

Instructions

Tongue & Groove or square cut wall panels

General notes on fixing panels

Panels can be fixed directly to battens or walls using Hydropanel panel adhesive. It is recommended that the panels are fixed to battens to provide air space behind. Fix treated timber battens approximately 45mm x 21mm horizontally with one at the head and one at the base of the panels. Additional horizontal battens should be a maximum distance of 500mm apart. They should be parallel to each other and plumb to give a solid ground for fixing the panels with Hydropanel adhesive. Additional battens should be used behind wash hand basins, towel rails and other heavy items to give a secure fixing.

Panel Preparation

1. Cutting Panels:
Cut panel with pattern facing upwards using a handsaw. If using an electric saw, cut panel with laminate face downwards.

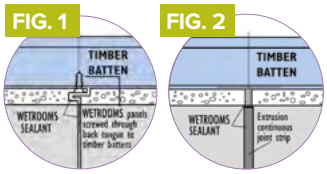

2. Cut Edge Filing:
The panel edge should be filed at a slight angle away from the laminate edge.

3. Pipes and Accessories:
All pipes and accessories require a 3-4mm clearance, allowing them to be sealed with a bead of Hydropanel sealant. If fitting a collar, first seal with Hydropanel sealant.

4. Timber Battens:
(45mm x 21mm) Use battens if walls are uneven, at a maximum distance of 500mm apart. Fix panels to battens using Hydropanel adhesive.

5. Panel Fitting:
Fit panels 3mm above bath, shower tray or floor, with edge downwards. Seal gap with Hydropanel sealant. It is imperative that all edges are sealed and the sealant is taken 5mm up the face of the panel at a 45° angle.

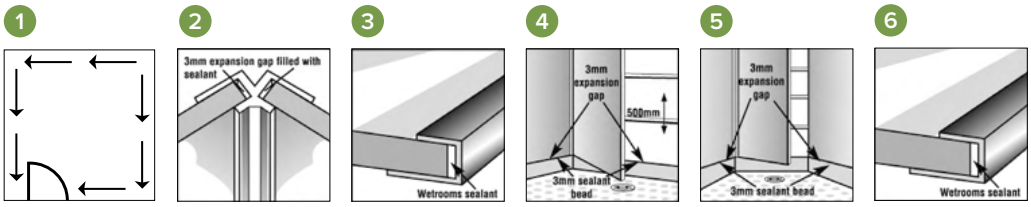

6. Panel & Decor Strip Sealing:
In wet areas such as a bathroom, use Hydropanel sealant inside each profile prior to inserting panel.

Hydropanel

Tongue & Groove Recommended for continuous panel runs

The vertical edges are tongue and grooved to give the finished panelling a smooth, easily maintained surface. Panels have asymmetrical tongue and grooved vertical edges giving 5mm of joint overlap. A waterproof joint is assured when sealed with Hydropanel sealant.

Installation

1. Where to start:

Panel in both directions around the room, starting at the corner furthest from the door. Fit the last panel above the doorway, placed in position tongue first and swung into position. All panels must be correctly aligned and plumb. Use Hydropanel panel adhesive to fix panels to battens. Seal all panel joints using Hydropanel sealant.

2. Begin Panelling:

Fix a Hydropanel internal profile in position first ensuring that it is plumb. Apply Hydropanel sealant to the recess of the profile. Apply Hydropanel adhesive to the battens. After removing the smaller tongue, or cutting to size insert the first panel. Continue to panel away from the corner in both directions, fixing panels to battens with Hydropanel adhesive, and sealing joins with Hydropanel sealant.

3. Continue Panelling:

Continue panelling around the room fixing each panel to the battens with Hydropanel adhesive, or screws through the back lip of grooved edge. Seal tongue and groove joints using Hydropanel sealant. Where appropriate use internal and external corner profiles, sealing with Hydropanel sealant.

Square cut with aluminium joint extrusions which allow for on site cutting, the edges being covered by aluminium trim extrusions. This will facilitate for faster installation.

4. Fit the shower tray hard against or cut into the wall. First cut the panels and profiles to size. Fix a Hydropanel internal profile in position ensure that it is plumb. Apply Hydropanel sealant into profile and insert panels. Fix panels to battens using Hydropanel panel adhesive.

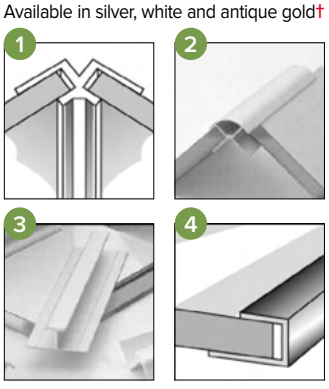

5. First panel is fitted as for the two panel shower enclosure. Put a second internal corner profile onto the edge of second panel, and apply Hydropanel adhesive to the battens. Insert other edge into profile already attached to the wall, and swing into place forming back of enclosure. Fix profile to wall, insert third panel and glue to wall. Ensure a generous bead of Hydropanel sealant is applied into all the profiles.

6. Finish outer panel edges with U-Trim, applying a bead of Hydropanel sealant into the U-Trim. Seal all gaps around the tray with Hydropanel sealant prior to installing the shower door or side panel.

Use the H continuous run decorative aluminium joining and stacking profile to join panels and install in a similar manner to tongue and groove panelling, applying a generous bead of Hydropanel sealant into the profile.

Aluminium Profiles

Available in silver, white and antique gold†

1. Internal corner profile:
2400mm. Used on all internal 90° corners sealing with Hydropanel sealant.

2. External corner profile:
(2500 mm) Used on 90° external corners, sealing with Hydropanel sealant.

3. Joining and stacking profile:
(2500 mm) Used to mount panels side by side, or above each other, sealing with Hydropanel sealant.

4. U-TRIM:
(2500 mm) Finishing touches and cap for square cut edge of panel, sealing with Hydropanel sealant.

Hydropanel Adhesives and Sealants

It is recommended that only Hydropanel's own brand adhesives and sealants are used. Approximately 1 cartridge of Hydropanel adhesive and 1 cartridge of Hydropanel sealant is required for a 800 mm wide panel.

Cleaning and maintenance

The hardwearing surface of the panelling and aluminium profiles can be hygienically cleaned with Hydropanel spray cleaner which is a mild non-abrasive cleaner with anti-bacterial cleanser.

Abrasive cleaners or bleach must not be used.

A large variety of possible applications:

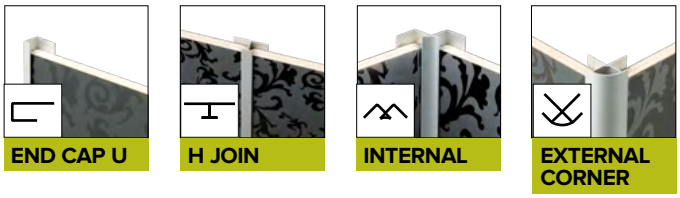

DOMESTIC: Walls of showers, kitchens, wet areas, utility rooms, conservatories, extensions etc.

COMMERCIAL: Hotels (bathrooms, kitchens, wet areas, reception areas, etc). Cafeterias (food preparation areas, kitchens, toilet facilities, etc) offices, shops, hospitals, schools, laboratories, etc.

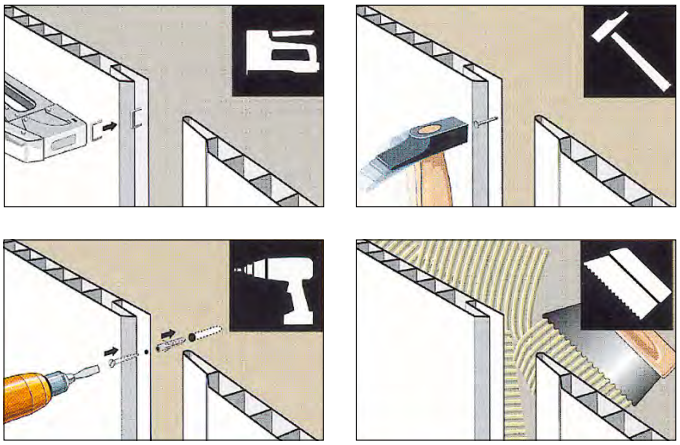

PVC Panel Instructions

How to Fit the PVC Profiles

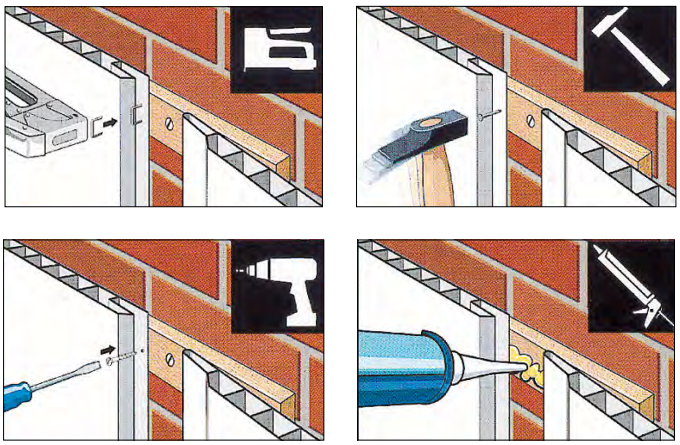

- Hygienic, washable and easy to maintain
- Very simple to install
- Can be cut to size very easily
- Save up to 50% of the cost of conventional tiling
- Ideal for bathrooms, showers, kitchens etc
- A wide range of stunning decors
- Excellent insulation and sound proofing
- Recyclable

Fix Directly On To Wall

Fix Directly Onto Batten

Assembly Instructions

There are two ways to assemble the tongue and groove wall panels. Either glue or fix directly on to the wall if the surface is relatively even and dry. Use 'Wetwall Adhesive' or fix on to a wooden frame. Fixing to timber battens is easy: a staple gun, hammer and nails, screws or 'Wetwall Adhesive' can be used.

To make the wooden frame, strap the wall with wooden battens approx. every 50cm according to the direction of your panel assembly. To install the panels vertically, lath the wall horizontally and vice versa. If the panels are to be placed diagonally, the wall may be lathed either horizontally or vertically.

Start with installing the preferred P.V.C. profiles on the sides (start at edge trim, or inside corner).

Nail, staple, screw or glue the first panel to the wooden battens. Silicone seal all ends, joints and profiles in a wet area such as a shower or around a bath with Wetwall sealant.

Insert the next panel (side with tongue) into the groove of the previous panel. Nail, staple, screw or glue the panel along the tongue on the opposite side. Proceed in a similar manner for the fixing of all panels.

SEALING: To seal the joint between two panels we recommend using 'Wetwall Silicone Sealant' when sealing in wet areas, in the shower or around the bath.

CUTTING: We recommend when using a precision handsaw, cutting the panel with the decorative side upwards. When using an electric saw cut panel with decorative side downwards.

Benefits Of Using Wetroom Adhesives, Sealants And Cleaners

Wetroom Sealant is of the highest quality silicone. It is a fast curing, low modulas, neutral, fungicidal silicone sealant, developed for use with Wetroom panelling, and for general sanitary use.

- Wetroom Sealant forms a strong secure bond even between two non-porous surfaces.
- Wetroom Sealant has a high degree of elasticity, which ensures that the bond remains firm during the natural expansion and contraction of the panelling.
- Wetroom Sealant is designed for high pressure and pumped shower systems.

It is required the only Wetroom's own brand of adhesive sealant and cleaner are used.

Abrasive cleaners and bleaches must not used on Wetroom panelling.

Accessories

Description	Code	£ Ex VAT	£ Inc VAT
Hydropanel Adhesive 310ml*	32.005	16.00	**19.20**
Hydropanel Sealant 310ml*	32.006	16.00	**19.20**
Hydropanel Cleaner 500ml*	32.007	15.00	**18.00**

*Normal requirement one tube per panel. For a packet of four panels, approximately one cartridge of Wetroom adhesive and one cartridge of Wetroom sealant is required.
**Hyrdropanel cleaner is required on surface and panels.

RAL Colours / Codes

The RAL codes for the radiator and valve colours in the radiator section are as follows:

Gloss White* : RAL 9016
Matt White* : RAL 9016 Matt
Matt Grey* : RAL 7040 Matt

Matt Cappuccino* : Special Colour (Closest colour RAL 1019 Matt)
Matt Cobalt Blue* : RAL 5013 Matt
Matt Anthracite* : Special colour (Closest colour RAL 7016 Matt)

Matt Black* : RAL 9005 Matt

*Touch Up pens for above colours available, please ask sales/technical for more details.
*Eastbrook radiator colour swatch contains above colours & more colours, please don't forget to ask for your copy.

Heated Towel Rails & Radiators

A huge variety of towel rails and radiators from modern to traditional, available in steel, aluminium and stainless steel.

There are a great choice of colours including chrome, black gold, brushed brass, brushed bronze, gloss white, matt white, matt grey, matt cappuccino, matt cobalt blue, matt anthracite, matt black, polished aluminium and bronze effect / chrome effect. Most of our towel rails and radiators can be powered via dual fuel, single fuel and or all electric.

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, D, E, F or G. For element types see pages 890-902. For matching valves see pages 904-917. For indirect heating systems only. Tappings are approx. 50mm less than the width of the rail and approx. 75-95mm off the wall. Projection from wall 90-110mm. Price includes radiator and wall fixing sets, valves extra.

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, D, E, F or G. For element types see pages 890-902. For matching valves see pages 904-917. For indirect heating systems only. Tappings are approx. 50mm less than the width of the rail and approx. 59-69mm off the wall. Projection from wall 74-84mm. Price includes radiator and wall fixing sets, valves extra.

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, D, E, F or G. For element types see pages 890-902. For matching valves see pages 904-917. For indirect heating systems only. Tappings are approx. 50mm less than the width of the rail and approx. 70-85mm off the wall. Price includes radiator and wall fixing sets, valves extra.

Multirail Range

WINGRAVE - STRAIGHT, CHROME

Pictured 89.1449 Chrome

Pictured 89.0095 Chrome

A contemporary straight towel radiator range which comes in chrome, matt anthracite, matt cobalt blue, matt black, matt grey, gloss white and matt white finishes. With a wide variety of sizes, this range not only adds to your bathroom with design simplicity but also keeps your towels warm.

FEATURES
- 22mm diameter horizontal round tubes
- Wide range of sizes to fit in all spaces
- Horizontal sizes to fit under windows
- Tested to BS EN 442 standards
- 5 Year manufacturer's warranty*
- Can be single or dual fuel, or all electric

* With conditions

Warranty 5 Year | Diameter (Ø) 22 MM Bars | Heating | All Electric | Dual-Fuel

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, D, E, F or G. For element types see pages 890-902. For matching valves see pages 904-917. For indirect heating systems only. Tappings are approx. 44mm less than the width of the rail and approx. 65mm off the wall. Price includes radiator and wall fixing sets, valves extra.

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, D, E, F or G. For element types see pages 890-902. For matching valves see pages 904-917. For indirect heating systems only. Tappings are approx. 44mm less than the width of the rail and approx. 65mm off the wall. Price includes radiator and wall fixing sets, valves extra.

Multirail Range

WINGRAVE - CURVED CHROME

Pictured 89.0392 Chrome

Warranty 5 Year | Diameter (Ø) 22 MM Bars | Heating | All Electric | Dual-Fuel

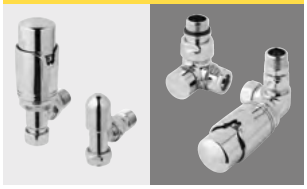

A high quality contemporary range available in a curved design and chrome finish. Available with robe hook accessories. This range is the ultimate in simplicity of style and practicality for your bathroom, keeping your towels warm.

FEATURES

- 22mm diameter horizontal round tubes
- Tested to BS EN 442 standards
- 5 Year manufacturer's warranty*
- Can be single or dual fuel, or all electric

* With conditions

Radiator Valves
Page 904-917

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, D, E, F or G. For element types see pages 890-902. For matching valves see pages 904-917. For indirect heating systems only. Tappings are approx. 44mm less than the width of the rail and approx. 65mm off the wall. Price includes radiator and wall fixing sets, valves extra.

Radiator Valves
Page 904-917

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, D, E, F or G. For element types see pages 890-902. For matching valves see pages 904-917. For indirect heating systems only. Tappings are approx. 42mm less than the width of the rail and approx. 85mm off the wall. Price includes radiator and wall fixing sets, valves extra.

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, D, E, F or G. For element types see pages 890-902. For matching valves see pages 904-917. For indirect heating systems only. Tappings are approx. 30mm less than the width of the rail and approx. 70-85mm off the wall. Projection from the wall is 255-270mm. Price includes radiator and wall fixing sets, valves extra.

Introducing the Wendover Straight Multirail, now available in a sleek stainless steel version. Combining the practicality of a towel rail with the durability and modern elegance of stainless steel, it's the perfect addition to any stylish bathroom.

FEATURES

- Grade 304 Stainless Steel material
- 22mm diameter horizontal round tubes
- 40 x 30mm vertical profiles
- Mirror polished surface (Chrome effect)
- Tested to BS EN 442 standards
- Can be single or dual fuel, or all electric
- 5 Year manufacturer's warranty*

* With conditions

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, D, E, F or G. For element types see pages 890-902. For matching valves see pages 904-917. For direct & indirect heating systems. Tappings are approx. 50mm less than the width of the rail and approx. 75-100mm off the wall. Price includes radiator and wall fixing sets, valves extra. Maximum working pressure: 4bars.

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, D, E, F or G. For element types see pages 890-902. For matching valves see pages 904-917. For indirect heating systems only. Tappings are approx. 60mm and approx. 79mm off the wall. Price includes radiator and wall fixing sets, valves extra.

Radiator Valves
Page 904-917

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, D, E, F or G. For element types see pages 890-902. For matching valves see pages 904-917. For indirect heating systems only. Tappings are approx. 50mm and approx. 80mm off the wall. Projection from wall is 115mm. Price includes radiator and wall fixing sets, valves extra.

*With conditions

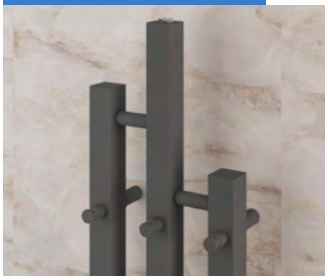

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, D, E, F or G. For element types see pages 890-902. For matching valves see pages 904-917. For indirect heating systems only. Tappings are 180mm and approx. 64-74mm off the wall. Tappings height difference 100mm. Projection from wall is 84-94mm. Price includes radiator and wall fixing sets, valves extra.

Pictured 91.0032 (Fitted Horizontally)

Single profile construction

Radiator can be installed vertically or horizontally using the pre-fitted wall bracket holders. (Below images)

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type C, E or H. For element types see pages 890-902. For matching valves see pages 904-917. Comes with pre-fitted flow diverter (except 500 & 600mm heights). Flow diverter must remain in place when radiator installed on central heating system (only for vertical installations). For indirect heating systems only. In vertical installation, tappings are the width of the rail and approx. 40mm off the wall. In horizontal installation, tappings are approx. 50mm less than the width of the rail and approx. 40mm off the wall. Price includes radiator and wall fixing sets, valves extra. Cannot be used with dual fuel thermostatic valves.

1800 x 588mm	2127	7257	600W	A+	91.0042	1048.00	**1257.60**

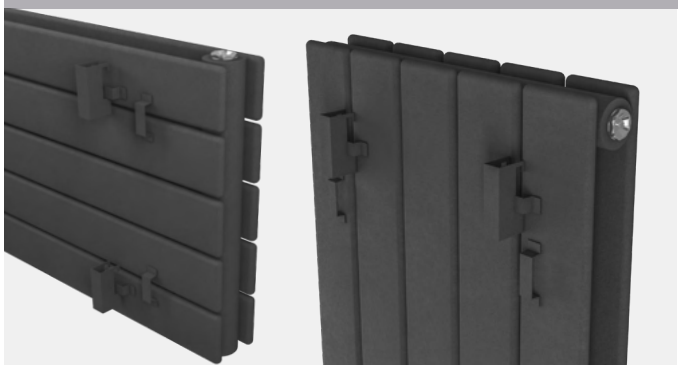

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type C, E or H. For element types see pages 890-902. For matching valves see pages 904-917. Comes with pre-fitted flow diverter (except 500 & 600mm heights). Flow diverter must remain in place when radiator installed on central heating system(only for vertical installations). For indirect heating systems only. In vertical installation, tappings are the width of the rail and approx. 64mm off the wall. In horizontal installation, tappings are approx. 50mm less than the width of the rail and approx. 64mm off the wall. Price includes radiator and wall fixing sets, valves extra. Cannot be used with dual fuel thermostatic valves.

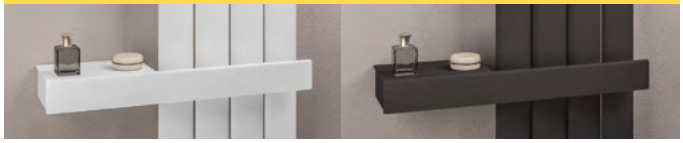

Double profile construction

Radiator can be installed vertically or horizontally using the pre-fitted wall bracket holders. (Below images)

Type 21 - Height 500mm

Type 21 - Height 600mm

FEATURES - TYPE 11 & 21 RADIATORS

- Tested to BS EN 442 standards
- Manufactured in automatic production lines
- Hot water central heating systems only
- Max operating pressure 4 bars
- Complete with fitted top grill & side panels
- Radiators have 4 x 1/2" connections
- Powder coated in RAL 9016 Gloss White
- Installation kit included in packaging
- 10 Year Manufacturer's Warranty*

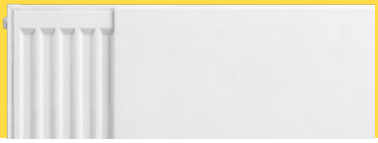

* With conditions

Manufacturer's Warranty 10 Years

TECHNICAL INFORMATION (TYPE 11 & 21)

All measurements in Height by Width. Heat outputs stated are based on ▲T50˚C & ▲T60˚C. Radiators are only suitable for two-pipe installations. Pipework installation is recommended after receipt of radiator. High quality mild steel material, 1.11mm thickness. Air vent and blanking plug included in installation kit. Tappings are the width of the radiator.

Type 22 - Height 600mm

FEATURES - TYPE 11, 21 & 22 RADIATORS

- Tested to BS EN 442 standards
- Manufactured in automatic production lines
- Hot water central heating systems only
- Max operating pressure 4 bars
- Complete with fitted top grill & side panels
- Radiators have 4 x 1/2" connections
- Installation kit included in packaging
- Powder coated in RAL 9016 Gloss White or RAL 9005 Matt Black
- 10 Year Manufacturer's Warranty*

* With conditions

Manufacturer's Warranty 10 Years

Type 22 Keynsham Radiator with Flat Cover

Pictured 25.7005 Gloss White

Introducing Type 22 Keynsham Radiator; a compact panel radiator paired with an ultra-modern design cover. The cover is incredibly easy to fit, enhancing the style of the radiator. Available in three stunning colours.

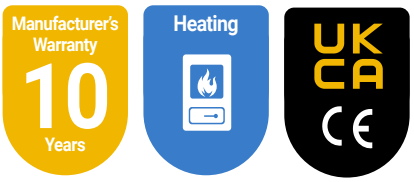

FEATURES - TYPE 22 KEYNSHAM RADIATORS

- Tested to BS EN 442 standards
- Manufactured in automatic production lines
- Hot water central heating systems only
- Max operating pressure 4 bars
- Radiators come complete with fitted top grill & side panels
- Remove radiator's top grill & side panels to fit cover
- Radiators have 4 x 1/2" connections
- Radiator fixing kit included in packaging
- Powder coated in RAL 9016 Gloss White, Matt Anthracite or RAL 9005 Matt Black
- 10 Year Manufacturer's Warranty*

* With conditions

Radiator & Cover - Matt Black

Type 22 Keynsham Radiator with Lined Cover

The radiator and cover plate will be bought under one code, but shipped in two separate packages. To install, the radiator's top grille and side panels first have to be removed, as these parts will not be needed. Then, simply slide the cover plate onto the radiator.

- Each kit includes two pipe shrouds and two collars
- Shroud length 200mm., can be cut to desired length

Manufacturing & Packaging

The Eastbrook compact panel radiators range offers 3 types of radiators in over 140 sizes and 3 colours; gloss white, matt anthracite and matt black that are available from stock.

Eastbrook compact panel radiators are produced in fully automated state-of-the-art production lines and each radiator is first degreased then zinc phosphated before being dipped in a water based cataphoretic paint. The final coat is applied by automatic robots using epoxy polyester electrostatic powder coating.

**Our compact panel radiators are packed in heavy duty, protective packaging.
Full size front carton, side cartons, bubble wrap, plastic corner protection and shrink wrap will protect these radiators to their destination.**

10 YEAR MANUFACTURER'S WARRANTY

Our compact panel radiators are individually tested and supplied complete with a 10 Year Manufacturer's Warranty against any manufacturing or material fault. All our compact panel radiators have a working pressure of 4 Bars.

COMPLETE WITH FIXING KITS

Each compact panel radiator is supplied with complete concealed wall brackets including air vent and blanking plug.

QUALITY

All our compact panel radiators are manufactured under ISO 9001:2015 and comply to UKCA & CE standards.

AFTERSALES

In the event of any questions or concerns, we have a dedicated Technical and Aftersales team that will be able to assist with regarding the installation of the radiators.

Important Installation Notes

- Compact panel radiators must be installed by a qualified engineer. Instruction manual is to be followed to avoid any issues during installation.
- Consider using an Eastbrook valve set to get the perfect colour match.
  Have your system vented properly. A general cause of corrosion and leak problems are due to trapped air in the system.
- Make sure that the drain points are at lowest in the system and your system is throughly flushed before commissioning.
- System must be clean of residues such as metal, flux etc, this can cause pin-holes.
  Do not over pump the system which will case negative pressure aeration that can also cause corrosion.
- It is recommended that an appropriately approved corrosion inhibitor must be subsequently added to the system in order to protect the radiator and other parts of the system to promote extended operating lifespan. Please ensure that, when adding inhibitor, not to underdose or overdose and follow the inhibitor instructions. The Ph level of the system water should be between 6.5 and 7.5.
- If the system water is too acidic then the metals in the system would corrode. If the system water is too alkaline, then there is a higher risk of electrolysis.
- Our compact panel radiators come with an instruction manual. Please follow the basic guidance above and in the instructions to protect your 10 year manufacturer's warranty and trouble free operating lifespan of your radiator.

Sub Section

Aluminium Range

A huge variety of contemporary aluminium radiators and towel rails, from flat panel to ladder rail styles to suit any room.

Statement piece accessory towel hangers complement both vertical and horizontal designs allowing room for towels.

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B. For element types see pages 890-902. For matching valves see pages 904-917. For indirect heating systems only. Tappings are approx. 29mm less than the width of the rail and approx. 90-110mm off the wall. Projection from wall is 108-128mm. Price includes radiator and wall fixing sets, valves extra.

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. For matching valves see pages 904-917. Corrosion inhibitor must be added to the heating system and maintained. Flow diverter must only be fitted when radiator installed on central heating system. For indirect heating systems only. Tappings are the width of the rail and 45mm off the wall. Price includes radiator and wall fixing sets, valves extra.

A luxurious flat panelled radiator range with stunning clean lines which will be the focus of any room is now available also in aluminium. Available in horizontal or vertical sizes and different heights. Stunning towel hangers will complement the vertical design allowing room for your towels.

FEATURES

- Excellent heat conductivity and lightweight
- Only requires a low water volume
- Heats up very quickly
- Tested to BS EN 442 standards
- 5 Year Manufacturer's Warranty*
- Can be single or dual fuel, or all electric
- Radiators come with cover caps on top and bottom, the same colour as the radiator

* With conditions

For element types see pages 890-902.

For 500 and 600mm Heights : Element can only be installed horizontally on the bottom header. Radiators that are electric only are restricted to the heat output of the elements.

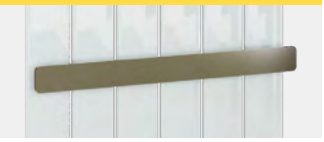

For element types see pages 890-902.

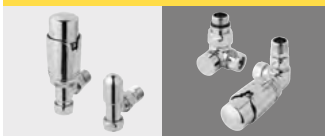

For 800, 1000, 1200, 1400 and 1800mm Heights: Element can be installed vertically on the right-hand or left-hand side on the bottom header. Radiators that are electric only are restricted to the heat output of the elements. For dual fuel installations, element must be installed on flow side.

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. For matching valves see pages 904-917. Corrosion inhibitor must be added to the heating system and maintained. Flow diverter must only be fitted when radiator installed on central heating system. For indirect heating systems only. Tappings are the width of the rail and 45mm off the wall. Price includes radiator and wall fixing sets, valves extra.

A luxurious flat panelled radiator range with stunning clean lines which will be the focus of any room is now available also in aluminium. Available in horizontal or vertical sizes and different heights. Stunning towel hangers will complement the vertical design allowing room for your towels.

FEATURES

- Excellent heat conductivity and lightweight
- Only requires a low water volume
- Heats up very quickly
- Tested to BS EN 442 standards
- 5 Year Manufacturer's Warranty*
- Can be single or dual fuel, or all electric
- Radiators come with cover caps on top and bottom, the same colour as the radiator

* With conditions

For element types see pages 890-902.

For 500 and 600mm Heights : Element can only be installed horizontally on the bottom header. Radiators that are electric only are restricted to the heat output of the elements.

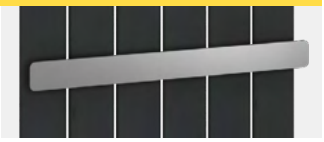

For element types see pages 890-902.

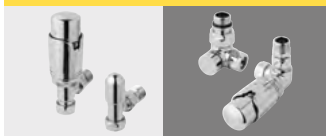

For 800, 1000, 1200, 1400 and 1800mm Heights: Element can be installed vertically on the right-hand or left-hand side on the bottom header. Radiators that are electric only are restricted to the heat output of the elements. For dual fuel installations, element must be installed on flow side.

1800 x 565mm	1661	5668	1000W	A, A+, B, F, G	89.0766	595.00	**714.00**

Prices include radiator and wall fixing sets, valves and accessories extra.

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. For matching valves see pages 904-917. Corrosion inhibitor must be added to the heating system and maintained. Flow diverter must only be fitted when radiator installed on central heating system. For indirect heating systems only. Tappings are the width of the rail and 33 or 53mm off the wall.

Charlton Cover Cap Sets - Chrome

Description	Code	£ Ex VAT	£ Inc VAT
Cover Cap Set 280mm	89.0165	18.00	**21.60**
Cover Cap Set 375mm	89.0166	21.00	**25.20**
Cover Cap Set 470mm	89.0167	23.00	**27.60**
Cover Cap Set 565mm	89.0837	28.00	**33.60**

Cover cap sets only include cover caps for the top of the radiator.

For element types see pages 890-902.

Element can only be installed vertically on the right-hand side on the bottom header. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, F or G. For dual fuel installations, element must be installed on flow side.

Warranty 5 Year | Heating | All Electric | Dual-Fuel

For element types see pages 890-902.

Element can only be installed horizontally on the bottom header. Radiators that are electric only are restricted to the heat output of the elements (Type C&H up to 900 watts).

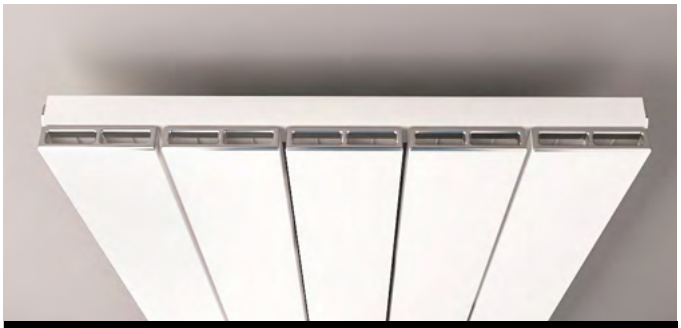

FEATURES

- Excellent heat conductivity and lightweight
- Only requires a low water volume
- Heats up very quickly
- Radiators come with cover caps on top and bottom, same as radiator colour.
- Can be single, dual fuel or all electric
- Tested to BS EN 442 standards
- 5 Year Manufacturer's Warranty*

* With conditions

Prices include radiator and wall fixing sets, valves and accessories extra.

For element types see pages 890-902.

Element can only be installed horizontally on the bottom header. Radiators that are electric only are restricted to the heat output of the elements (Type C&H up to 900 watts).

Warranty 5 Year | Heating | All Electric | Dual-Fuel

FEATURES

- Excellent heat conductivity and lightweight
- Heats up very quickly
- Only requires a low water volume
- Radiators come with cover caps on top and bottom, same as radiator colour. Matt Cobalt Blue radiators come with Chrome Cover Caps
- Can be single, dual fuel or all electric
- Tested to BS EN 442 standards
- 5 Year Manufacturer's Warranty*

* With conditions

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. For matching valves see pages 904-917. Corrosion inhibitor must be added to the heating system and maintained. Flow diverter must only be fitted when radiator installed on central heating system. For indirect heating systems only. Tappings are the width of the rail and 33 or 53mm off the wall.

Pictured 89.0742 Matt Anthracite with 89.0212 Towel Hangers x3

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. For matching valves see pages 904-917. Corrosion inhibitor must be added to the heating system and maintained. Flow diverter must only be fitted when radiator installed on central heating system. For indirect heating systems only. Tappings are the width of the rail and 33 or 53mm off the wall.

For element types see pages 890-902.

Element can only be installed vertically on the right-hand side on the bottom header. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, F or G. For dual fuel installations, element must be installed on flow side.

TECHNICAL INFORMATION

Material: **Steel**

Vertical Radiators:

1200mm radiators come with 2 pre-drilled towel hanger locations with a maximum of 2 towel hangers and 1800mm height radiators come with 3 pre-drilled towel hanger locations with a maximum of 3 towel hangers - all widths; 185, 280, 375, 470 and 565mm. The standard towel hangers are only compatible with the Vertical Radiators.

Can be fitted after installation only on high adjustment bracket fitting.

Horizontal Radiators:

500mm & 600mm height radiators come with 1 pre-drilled towel hanger location, with a maximum of 1 towel hanger - (only 375, 470 and 565mm widths).

Standard towel hanger can be fitted.

Can be fitted after installation only on high adjustment bracket fitting.

The Malmesbury Standard Towel Hangers will add approx 22mm width on each side once fitted to the radiator.

- Heats up very quickly
- Tested to BS EN 442 standards
- 5 Year Manufacturer's Warranty*
- Can be single or dual fuel, or all electric
- Radiators come with cover caps on top and bottom, the same colour as the radiator

* With conditions

For element types see pages 890-902.

Element can only be installed horizontally on the bottom header. Radiators that are electric only are restricted to the heat output of the elements (Type C&H up to 900 watts).

Pictured 86.0061 Matt Black with 101.0109 Towel Hanger x1 (bottom connection valves shown)

A refined version of the designer flat panelled radiators with a curve to the end two panels. This radiator will add a touch of sophistication creating an impact in any room. Available in both vertical and horizontal designs as well as four different colours for maximium choice. Stunning towel hangers will complement the vertical design allowing room for your towels.

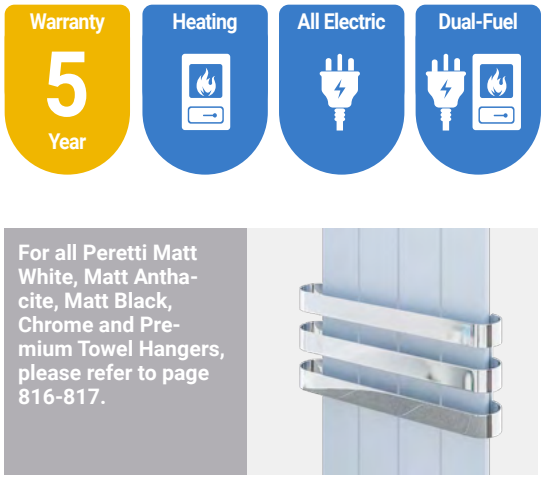

FEATURES

- Excellent heat conductivity and lightweight
- Only requires a low water volume
- Heats up very quickly
- Side or bottom connection options (only on vertical sizes)
- Tested to BS EN 442 standards
- 5 Year Manufacturer's Warranty*
- Can be single or dual fuel, or all electric
- Radiators come with cover caps on top and bottom, the same colour as the radiator

* With conditions

TECHNICAL INFORMATION

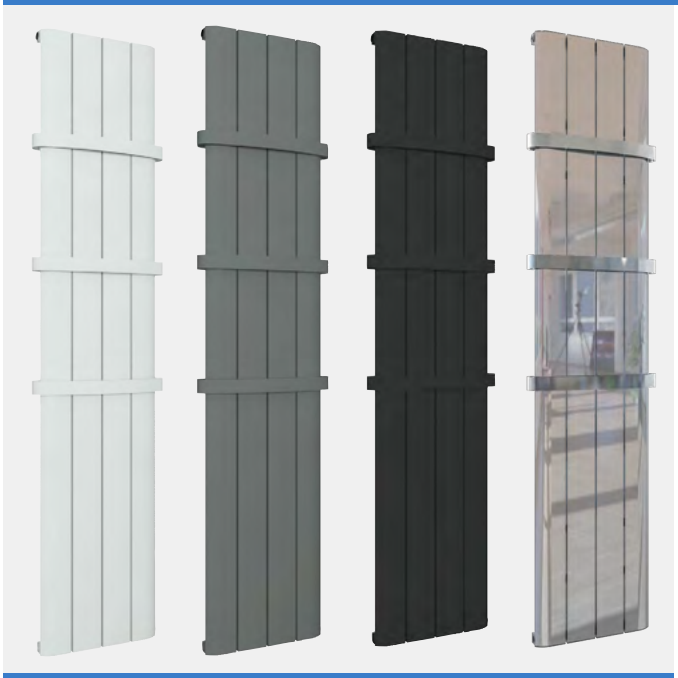

All measurements in Height by Width. Heat output based on ▲T60˚C. For matching valves see pages 904-917. Corrosion inhibitor must be added to the heating system and maintained. Flow diverter must only be fitted when radiator installed on central heating system. For indirect heating systems only. **Side connection:** Tappings are the width of the rail and 35 or 55mm off the wall. **Bottom connection:** Tappings are 90mm less than the width of the rail and 35 or 55mm off the wall.

For all Peretti Matt White, Matt Anthracite, Matt Black, Chrome and Premium Towel Hangers, please refer to page 816-817.

Prices include radiator and wall fixing sets, valves and accessories extra.

FEATURES

- Excellent heat conductivity and lightweight
- Only requires a low water volume
- Heats up very quickly
- Side or bottom connection options
- Radiators come with cover caps on top and bottom, same as radiator colour
- Tested to BS EN 442 standards
- 5 Year Manufacturer's Warranty*
- Can be single or dual fuel, or all electric

* With conditions

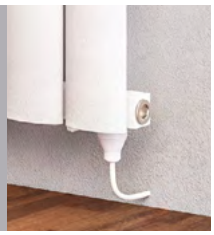

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. For matching valves see pages 904-917. Corrosion inhibitor must be added to the heating system and maintained. Flow diverter must only be fitted when radiator installed on central heating system. For indirect heating systems only. **Side connection:** Tappings are the width of the rail and approx 65mm off the wall. **Bottom connection:** Tappings are 65mm less than the width of the rail and approx 65mm off the wall.

For element types see pages 890-902.

Element can be installed vertically on the right-hand side or left-hand side on the bottom header. Radiators that are electric only are restricted to the heat output of the elements. For dual fuel installations, element must be installed on flow side.

TOWEL HANGERS

Horizontal Radiators:

Horizontal radiators do not have holes for Standard Towel Hangers. Standard Towel Hangers can not be fitted.

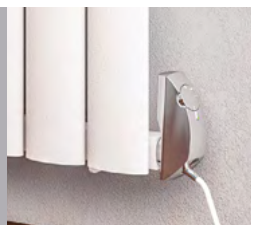

Sandhurst Cover Cap Sets - Chrome

Description	Code	£ Ex VAT	£ Inc VAT
Cover Cap Set 485mm	86.0304	40.00	**48.00**
Cover Cap Set 625mm	86.0305	49.00	**58.80**
Cover Cap Set 8535mm	86.0306	60.00	**72.00**
Cover Cap Set 1045mm	86.0307	69.00	**82.80**
Cover Cap Set 1255mm	86.0308	81.00	**97.20**

Cover cap sets only include cover caps for the top of the radiator.

For element types see pages 890-902.

Element can only be installed horizontally on the bottom header. Radiators that are electric only are restricted to the heat output of the elements.

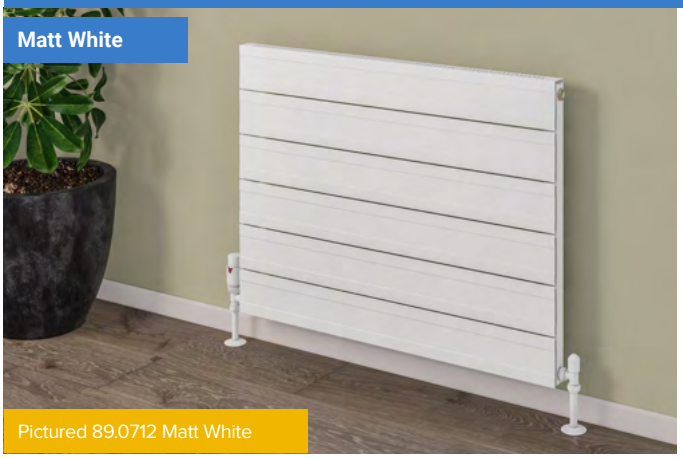

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. For matching valves see pages 904-917. Corrosion inhibitor must be added to the heating system and maintained. Flow diverter must only be fitted when radiator installed on central heating system. For indirect heating systems only. Tappings are the width of the rail and approx. 65mm off the wall.

GUARDIA VERTICAL

FEATURES
- Can be reversed when hanging on the wall
- Excellent heat conductivity and lightweight
- Only requires a low water volume
- Heats up very quickly
- Radiators come with cover caps on top and bottom, same as radiator colour
- Tested to BS EN 442 standards
- 5 Year Manufacturer's Warranty*
- Not suitable for elements

* With conditions

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. For matching valves see pages 904-917. Corrosion inhibitor must be added to the heating system and maintained. Flow diverter must only be fitted when radiator installed on central heating system. For indirect heating systems only. Tappings are the width of the rail and approx. 65mm off the wall. Price includes radiator and wall fixing sets, valves extra.

Can be reversed when hanging on the wall. Either side can be used as front facing.

TECHNICAL INFORMATION

Material: **Steel**

Vertical Radiators:
- Guardia Towel Hangers must be mounted on the wall. Can be fitted on both flat and curved type of installation.
- Guardia Towel Hangers can be mounted Left Hand or Right Hand of the radiator. Once the towel hanger is mounted on the wall, the radiator must be fitted from the side.
- Total length of each towel hanger is 30mm longer than the width of the radiator, making the radiator's width +30mm on the side they are mounted on. Towel hangers can mounted at any height vertically on the wall.

Must be fitted before radiator installation!

FEATURES

- Special double profile construction for high heat output
- Excellent heat conductivity and lightweight
- Only requires a low water volume
- Heats up very quickly
- Radiators come with cover caps on top and bottom, same as radiator colour
- Tested to BS EN 442 standards
- Not suitable for elements
- 5 Year Manufacturer's Warranty*

* With conditions

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. For matching valves see pages 904-917. Corrosion inhibitor must be added to the heating system and maintained. Flow diverter must only be fitted when radiator installed on central heating system. For indirect heating systems only. Tappings are the width of the rail and approx. 65mm off the wall. Price includes radiator and wall fixing sets, valves extra.

TECHNICAL INFORMATION

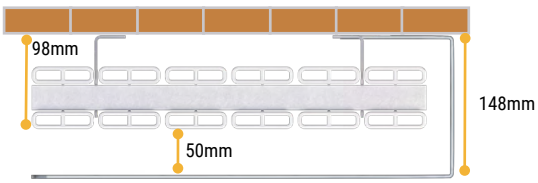

Material: **Steel**

Vertical Radiators:

- Hadleigh Towel Hangers must be mounted on the wall.
- Hadleigh Towel Hangers can be mounted Left Hand or Right Hand of the radiator. Once the towel hanger is mounted on the wall, the radiator must be fitted from the side.
- Total length of each towel hanger is 30mm longer than the width of the radiator, making the radiator's width +30mm on the side they are mounted on. Towel hangers can mounted at any height vertically on the wall.

Must be fitted before radiator installation!

KELMSCOTT VERTICAL

Pictured 89.0255 Matt White with 89.0358 Towel Hangers

This slimline radiator would be an ideal solution for those tight or tall spaces. This design has a curved front that will provide a stylish warmth to any room. Available in two colours as well as horizontal and vertical designs.

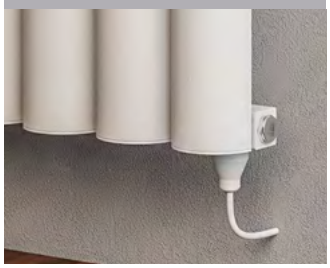

FEATURES

- Excellent heat conductivity and lightweight
- Only requires a low water volume
- Heats up very quickly
- Radiators come with cover caps on top and bottom, same as radiator colour
- Tested to BS EN 442 standards
- 5 Year Manufacturer's Warranty*
- Can be single or dual fuel, or all electric

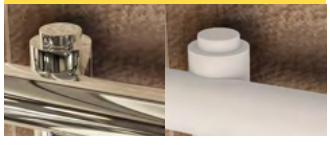

* With conditions

For element types see pages 890-902.

Element can only be installed vertically on the right-hand side on the bottom header. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type B, F or G. For dual fuel installations, element must be installed on flow side.

Eastbrook is always on the look out for products and finishes trending in the UK market. We have noticed a trend in bare brick and plain painted walls with traditional engineering items such as small sand casts mounted on the wall. Known in designer circles as the Industrial Chic look.

For those of you looking for Bare metal finish radiator showing the welds, pressings, sanding and tubes that make up a traditional column radiator, we have introduced this range. We have sealed the metal with clear lacquer to ensure no impurities are allowed to discolour or oxidise the metal.

TECHNICAL INFORMATION

All measurements in Height by Width. Heat output based on ▲T60˚C. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type C, E or H. For element types see pages 890-902. For matching valves see pages 904-917. For indirect heating systems. Tappings are the width of the rail and 80mm off the wall. Prices include radiator and wall fixings sets, valves extra.

A traditional rail which will give a Victorian touch of authenticity to any room but will also create an elegant look to a contemporary interior. This radiator boasts high outputs to ensure the whole room is warm. Comes with the option of traditional legs and in bronze effect or chrome effect finishes. Also available in two columns.

FEATURES

- Tested to BS EN 442 standards
- 5 Year Manufacturer's Warranty*
- Matching colour wall fixing sets
- Radiator feet option available to get the classic look
- Material thickness 1.5mm
- Doesn't require flow diverter

* With conditions

Elements

Build up your 'All Electric' Towel Rail/Radiator

Please note that all fluid filled rails are special order, elements will be fitted RH Side and are non-returnable.

Step 1
Choose your towel rail/radiator (Please make sure that you can see the "All Electric / Dual Fuel" icon on the chosen towel rail/radiator page).

Step 2
Refer to the "Element Output" column for the required output to suit the chosen towel rail/radiator.

Step 3
Choose which element type best suits your need from the "Element Type" column. Please check that the IP Rating is suitable for the site circumstances.

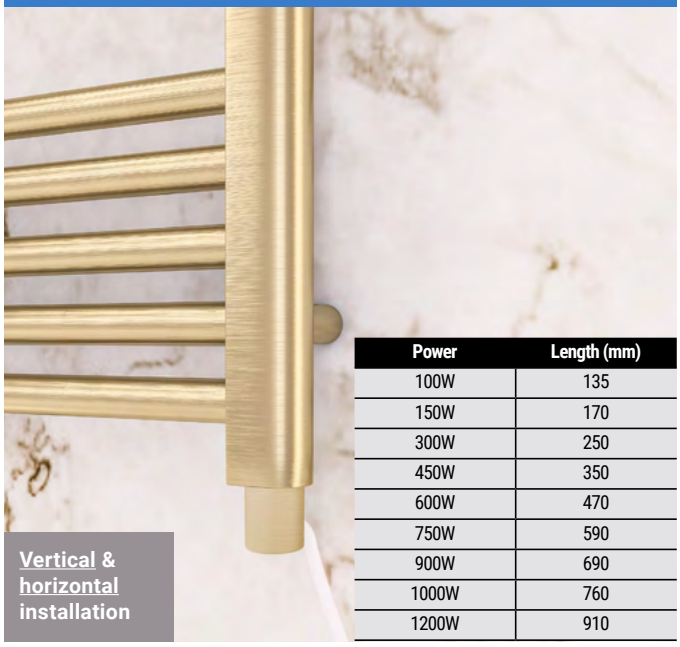

Step 4
For "All Electric" installation please add Fluid Filling.

Build up your 'Dual Fuel' Towel Rail/Radiator

Repeat **Steps 1-3** as left. Please add your radiator valves and dual elbow where applicable.

Fluid filling is not required.

ELEMENT TYPE A+ ECO

Power	Length (mm)
100W	135
150W	170
300W	250
450W	350
600W	470

900W	690
1000W	760
1200W	910

*(Not including appropriate element). I.P. rating 55. (Zone 2 and 3)
Please note all fluid filled rails are special order and are **non-returnable**.

FEATURES
- Elements use PTC self regulating technology providing excellent reliability and extended working life

TECHNICAL INFORMATION For an all electric towel rail/radiator, fluid filling must be purchased. Electric only elements will be fitted RH side unless otherwise specified. Cable colour white & length 1.5 metre. For dual fuel installations, purchase T piece separately. (Page 903)
Element should be rated at less than 60% of the radiator's output.

All Eastbrook fluid filled rails are filled with Fernox HP-5.
With over 40 years experience and continual investment in research and development, Fernox water treatment products are manufactured to the highest quality, reliability and performance. Fernox HP-5 is a pre-blended heat transfer fluid which gives a frost protection down to -5°C. It also provides long-term protection from damage caused by corrosion, limescale and bacteria and maintains a stable pH across a range of operational temperatures.

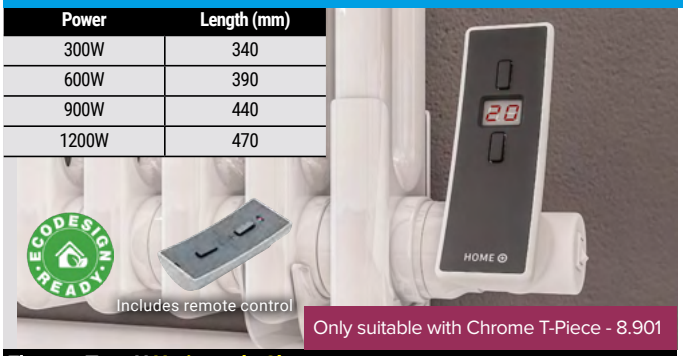

FEATURES - FERNOX
- Anti-cavitation (lower noise)
- Better heat transfer
- Anti-corrosion properties
- Anti-freeze

FERNOX MAKES WATER WORK

Wi-Fi On/Off Spur Switch White	41.0799	39.00	**46.80**

FEATURES

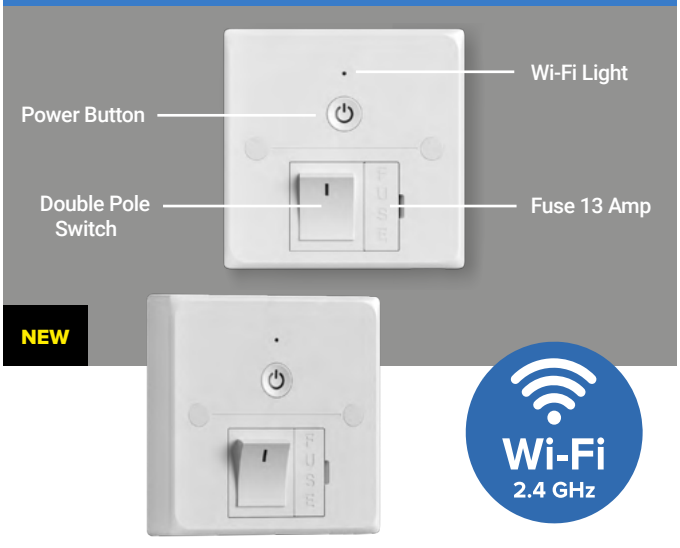

- Replaceable 13AMP BS1362 fuse
- Works with Wi-Fi 2.4 Ghz
- Program modes : Permanent On, Permanent Off, Boost & Countdown
- Daily & Weekly programmable
- Low running costs
- Max. load 3000 Watts
- Works with Smart Life APP.
- Wall box min. depth 25mm
- Ideal replacement for BS1363 fused spur
- **Would ideally work with Type A+/A+ Eco, Type A Element and Biava Dry Element towel rail**

WI-FI SMARTPHONE APPLICATION

Compatible with Alexa and Google Assistant. Works on Android & IOS.

Scan QR Code to download "Smart Life" App. Or download from either the Google Play Store or Apple App Store.

Valve Buying Guide

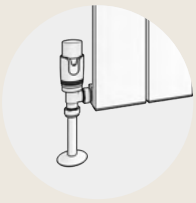

Radiator Valve Buying Guide

Step 1
Choose your towel rail or radiator. Remember to check where your central heating pipework is located.

Step 2
Check which type of connection your chosen radiator has. (Side or bottom connection).

Step 3
Choose from one of the below valve types which compatible with your pipework.

Angled Valves

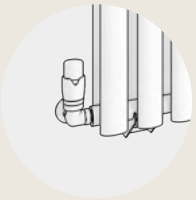

Manual Options **P911, 912, 913, 914, 915 & 916**
Thermostatic (TRV) Options **P905, 906, 907 & 909**

FEATURES
• Most used valve type.
• Connects radiator at 90° angle.
• Pipework can be from the wall or floor.

COMPATIBLE WITH:
- Connections at the sides & pipework from the floor.
- Connections at the sides & pipework from the wall.
- Connections at the bottom & pipework from the wall.

Corner Valves

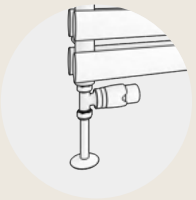

Manual Options **P912, 913 & 915**
Thermostatic (TRV) Options **P906, 907 & 910**

FEATURES
• Connects radiator at 90° angle.
• On side connections, valve head sits vertically.
• On bottom connections, valve head sits under the radiator.

COMPATIBLE WITH:
- Connections at the sides & pipework from the wall.
- Connections at the bottom & pipework from the wall.

Straight Valves

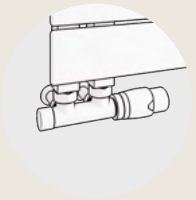

Manual Options **P911, 912, 913, 914 & 915**
Thermostatic (TRV) Options **P905, 906 & 908**

FEATURES
• Fits best to bottom connection towel rails & radiators.
• Suitable only with bottom connection radiators & towel rails with pipework from the floor or along the wall.
• Can be connected vertically or horizontally depending on the pipework.

COMPATIBLE WITH:
- Connections at the bottom & pipework from the floor.

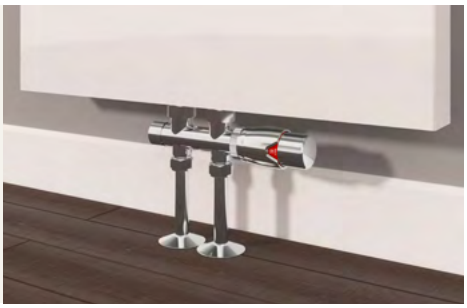

Twin Thermostatic Valves

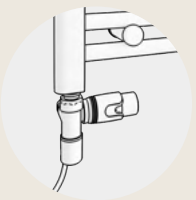

Thermostatic (TRV) Options **P906**

FEATURES
• Angled & Straight versions available.
• 50mm connection centres.
• Saves space by using one valve instead of two.
• Only suitable for selected models in our ranges.

COMPATIBLE WITH:
- Connections at the bottom & pipework from the floor.
- Connections at the bottom & pipework from the wall.

Dual Fuel Valves

Manual Options **P917**
Thermostatic (TRV) Options **P917**

FEATURES
• Only corner version available.
• Elements can be fitted from both sides. (a selection of valves)
• Only Type A, Type A+ & Type A+ Eco elements can be used.

COMPATIBLE WITH:
- Connections at the bottom & pipework from the wall.

Drain Off Valves

P916

• Can be used to drain off radiators.

Pipe Shrouds & Collar Kits

P919

• 15mm pipe covering shrouds & collars for asthetic perfection.

54.0016	44.00	**52.80**

FEATURES

- Approved to EN 1074-2:2000
- Produced to GB/T 19001-2016
- Produced to ISO 9001:2015
- 2 Year warranty with conditions

TECHNICAL INFORMATION

On all Darlington valves, the materials used can have a slight difference between their parts colours. The numbers on the TRV heads do not represent specific room temperatures as the temperature at which the valve operates depends on the water temperature flowing through the radiator, airflow around the head of the TRV, the room size and any heat loss in that space through walls, windows and floors.

FEATURES (STRAIGHT)

- 15mm straight models
- Approved to EN215
- Produced to ISO 9001: - 2008
- Energy saving - lower fuel bills
- Controls individual radiators to allow varying comfort levels throughout the home
- Reversible tail piece facilitates vertical or horizontal installation
- Luxury gloss white/chrome, matt white, matt grey, matt cappuccino, matt black, brushed nickel, brushed brass and chrome finishes
- 2 Year warranty with conditions

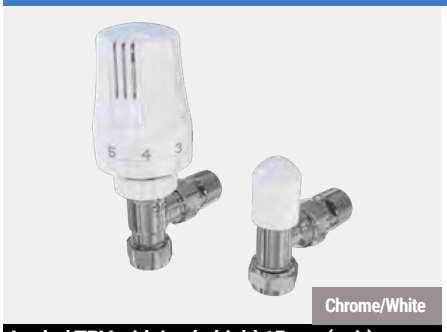

TECHNICAL INFORMATION

On all TRV's, due to different materials used, there can be a slight difference between the parts colours. The numbers on the TRV heads do not represent specific room temperatures as the temperature at which the valve operates depends on the water temperature flowing through the radiator, airflow around the head of the TRV, the room size and any heat loss in that space through walls, windows and floors.

All straight TRV's are BI-DIRECTIONAL

Eastbrook Co Terms & Conditions

We deliver all goods on our own dedicated transport fleet to ensure a speedy and problem-free service, however, in the unlikely event that goods are delivered wrong or damaged, it is the responsibility of the customer to ensure sufficient time is allowed for a replacement to be sent.

1. DEFINITIONS

In these terms and conditions, the following words shall have the following meanings:
'Buyer'
shall mean any person, Eastbrook or company, to whom Eastbrook supplies Goods or Services or with whom Eastbrook enters into negotiations for the supply of Goods or Services.
'Eastbrook'
shall mean Brian Michael Doouss and Nicolas Brian Doouss (each a "Partner" together the "Partners") trading as "Eastbrook Co." or "Woodstock".
'Goods'
shall mean products, articles or things which are supplied by or which are the subject of negotiations for supply by Eastbrook to the Buyer.
'Services'
shall mean services are supplied by or which are the subject of negotiations/ or supply by Eastbrook to the Buyer.

2. MAKING THE CONTRACT

2.1
Eastbrook's salesmen are not authorised representatives and are not authorised to accept confirm or vary any order nor to make any representation or promise on Eastbrook's behalf
2.2
Any estimate/quotation which comprises an invitation to treat is open for a period of 30 days only from the date thereof, provided that Eastbrook has not previously withdrawn it. Any order issued by the Buyer is subject to acceptance by Eastbrook and a contract will only be formed when Eastbrook has accepted the Buyer's offer to buy in writing. Any offer made by the Buyer must be confirmed in writing by the Buyer.
2.3
All orders are placed under these terms and conditions alone.
2.4
These terms and conditions exclude any other terms and conditions inconsistent therewith which a Buyer might seek to impose even though such other terms and conditions may be submitted in a later document and/or purport to exclude or supersede any terms or conditions with them or may be contained in any offer acceptance or counter-offer made by the Buyer.
2.5
No variation of these terms and conditions is permitted unless expressly accepted by a Partner of Eastbrook in writing.

3. CANCELLATION

3.1
No cancellation by the Buyer is permitted except where expressly agreed by a Partner of Eastbrook in writing.
3.2
The Buyer will in the event of agreed cancellation by the Buyer indemnify Eastbrook fully against all expenses incurred up to the time of such cancellation together with by way of liquidated damages a sum of 33 1/3% of the contract price which shall be paid by the Buyer to Eastbrook Forthwith.

4. PRICE

4.1
All prices quoted are those ruling at the date of dispatch or supply.
4.2
Unless otherwise stated all prices quoted are nett, exclusive of VAT, and in the case of Goods ex works.
4.3
Eastbrook reserves the right at any time prior to delivery of the Goods or supply of Services to adjust the price to take account of any increase in the cost of raw materials, labour or services or any currency fluctuations affecting the cost of imported materials or services.

5. TERMS OF PAYMENT

5.1
All sums become due and payable under these terms and conditions not later than 14 days from date of invoice.
5.2
Time for payment shall be of the essence.
5.3
The Buyer shall have no right to set off, statutory or otherwise.
5.4
If the Buyer (being a Company) has a petition for its winding-up or passes a resolution for voluntary winding-up otherwise than for the purpose of a bona fide amalgamation or reconstruction or compounds with its creditors or has a receiver appointed or all or any part of its assets or (being an individual) becomes bankrupt or insolvent or enters into any arrangement with its creditors or commits a material or serious breach of this Agreement (and in the case of such a breach being remediable fails to remedy it within 7 days of receiving notice to do so)' he will be deemed to have repudiated the Contract.
5.5
Eastbrook reserves the right at any time at its discretion to demand security for payment before continuing with or delivering any Order, supplying any Goods or Services.

6. DELIVERY

6.1
Delivery will be deemed to have been effected when the Goods are ready for collection at the premises of Eastbrook or as the case may be the premises of the suppliers to Eastbrook in circumstances where the Goods are delivered direct from such suppliers.
6.2
Time of delivery is not of the essence.
6.3
Eastbrook shall not be liable for any loss whatsoever or howsoever arising caused by its non-delivery or by the failure to make Goods ready for collection on the due date.
6.4
Eastbrook reserves the right to make delivery by instalments and to tender a separate invoice in respect of each instalment.
6.5
When delivery is to be by instalments or Eastbrook exercises its right to deliver by instalments under clause 6.4 hereof or if there be delay in the delivery of any one or more instalments for whatever reason this will not entitle the Buyer to treat the contract as repudiated and/or to damages.
6.6
Deviations in quantity between the Goods delivered and Goods ordered representing not more than 10 per cent by value shall not give the Buyer any right to reject the Goods or to claim damages and the Buyer shall be obliged to accept and pay at the contract rate for the quantity of the Goods delivered.

7. SUPPLY OF SERVICES

7.1
Time for the supply of Services is not of the essence.
7.2
Eastbrook shall not be liable for any loss whatsoever or howsoever arising caused by its failure to supply Services or any part thereof on the due date.
7.3
Eastbrook reserves the right to supply Services by instalments and to tender a separate invoice in respect of each instalment.
7.4
When the supply of Services is to be by instalments or Eastbrook exercises its right to supply Services by instalments under clause 7.3 hereof or if there be a delay in the supply of any one or more instalments of Services for whatever reason this will not entitle the Buyer to treat the contract as repudiated or to damages.
7.5
Deviation in the quantity between Services supplied and the Services ordered representing not more than 10 per cent by value shall not give the Buyer any right to reject the Services or to claim damages and the Buyer shall be obliged to accept and pay at the contract rate for the quantity of the Services supplied.

8. RISK AND THE PASSING OF PROPERTY IN GOODS

8.1
Risk in the Goods shall pass to the Buyer when the Goods are delivered.
8.2
Notwithstanding risk in the Goods passing in accordance with clause 8.1 hereof title in the Goods shall not pass to the Buyer until whichever shall be the first to occur of the following:-
8.2.1
payment being received by Eastbrook for the Goods and Services and no other amounts then being outstanding from the Buyer to Eastbrook in respect of other Goods or Services supplied by Eastbrook
8.2.2
the Buyer selling the Goods in accordance with the provisions of these terms and conditions in which case title to the Goods shall be deemed to have passed to the Buyer immediately prior to delivery of the Goods to the Buyer's customers; and

8.2.3
Eastbrook waiving its rights under this clause 8.2 in respect of specified Goods or Services whereupon title to the said Goods shall forthwith vest in the Buyer.
8.3
The Buyer is licensed by Eastbrook to use or to agree to sell the Goods delivered to the Buyer subject to the express condition that the entire proceeds of any sale are held in trust for Eastbrook and are not mixed with other moneys or paid into an overdrawn bank account and shall at all times be identifiable as Eastbrook's moneys.
8.4 Until title to the Goods passes:
8.4.1 The Buyer will hold the Goods as fiduciary agent and bailee for Eastbrook;
8.4.2
the Goods shall, subject to clause 8.3, be kept separate and distinct from all other property of the Buyer and of third parties and in good and substantial repair and condition and be stored in such a way as to be clearly identifiable as belonging to Eastbrook;
8.4.3
Eastbrook may at any time revoke the power of sale and use contained in clause 8.3 by notice to the Buyer if the Buyer is in default for longer than 14 days in the payment of any sum whatsoever due to Eastbrook (whether in respect of the Goods or any other Goods or Services supplied at any time by it to the Buyer) or if Eastbrook has bona fide doubts as to the solvency of the Buyer;
8.4.4
The Buyer's power of sale and use contained in clause 8.3 shall automatically cease if the Buyer has a petition presented for its winding-up or passes a resolution for voluntary winding-up otherwise than for the purpose of a bona fide amalgamation or reconstruction or compounds with its creditors or has a receiver appointed of all or any part of its assets or becomes bankrupts or insolvent or enters into any arrangements with creditors or takes or suffers any similar action in consequence of debts or carries out or undergoes any analogues act or proceeding under foreign law;
8.4.5
upon determination of the Buyer's power of sale and use pursuant to clause 8.4.3 or clause 8.4.4. the Buyer shall place any of the Goods in its possession or under its control and unsold at the disposal of Eastbrook and Eastbrook shall be entitled to enter upon any premises of the Buyer for the purpose of removing such Goods.
8.5
Eastbrook shall at any time be entitled to appropriate any payments made by the Buyer in respect of any Goods or Services in settlement of such invoices or accounts in respect of such Goods or Services as Eastbrook may in its absolute discretion think fit notwithstanding any purported appropriation to the contrary by the Buyer.

9. LIEN AND STOPPAGE

9.1
Until such time as the title in the Goods has passed to the Buyer Eastbrook has the right to withhold delivery if the Buyer (being a Company) has a petition presented for its winding-up or passes a resolution for voluntary winding-up otherwise than for the purpose of a bona fide amalgamation or reconstruction or compounds with its creditors or has a receiver appointed of all or any part of its assets or (being an individual) becomes bankrupt or insolvent or enters into any arrangements with creditors or takes or suffers any similar action in consequence of debts or carries out or undergoes any analogous act or proceedings under foreign law.
9.2
When the title in the Goods has passed to the Buyer and the time for payment has falled due but payment has not been made or if the Buyer (being a Company) has a petition presented for its winding-up or passes a resolution for voluntary winding-up otherwise than for the purposes of a bona fide amalgamation or reconstruction or compounds with its creditors or has a receiver appointed of all or any part of its assets or (being an individual) becomes bankrupt or insolvent or enters into any arrangements with creditors or takes or suffers any similar action in consequence of debts or carries out or undergoes any analogous act or proceedings under foreign law Eastbrook has
9.2.1 a lien on the Goods so long as Eastbrook is in possession of them
9.2.2 a right of stoppage in transit
9.2.3 a right of resale
9.3
For the avoidance of doubt it is hereby declared that nothing in this clause shall affect the rights given to Eastbrook by ss.38-48 of the Sale of Goods Act 1979.

10. INSPECTION/SHORTAGES

10.1
The Buyer is under a duty to inspect the Goods forthwith on delivery and satisfy himself as to the due performance of Services forthwith after supply.
10.2
Eastbrook shall be under no liability for any defects or shortages that would be apparent on careful inspection if the terms of this clause are not complied with, and, in any event will be under no liability if a written complaint is not delivered to Eastbrook within 7 days of delivery or supply detailing the alleged detect or shortage.
10.3
In all cases where defects or shortages in respect of Goods are complained of Eastbrook shall be under no liability in respect thereof unless an opportunity to inspect the Goods is given to Eastbrook before any use is made thereof or any alteration or modification is made thereto by the Buyer.
10.4
Subject to clauses 10.2 and 10.3 Eastbrook shall make good any defect or shortage in the Goods and where appropriate replace any Goods damaged in transit as soon as it is reasonably able to do so, but otherwise shall be under no liability whatsoever or howsoever arising from such defect, shortage or damage.
10.5
Subject to clause 10.4 Eastbrook shall remedy any defect in the supply of Services as soon as it is reasonably able to do so but otherwise shall be under no liability whatsoever or howsoever arising from such defect

11. WARRANTY

11.1
No representation or warranty is given as to the suitability or fitness of the Goods or Services for any particular purpose and the Buyer shall satisfy himself in this respect and shall be totally responsible therefore
11.2
If the Goods are in such a state or the Services so defectively supplied as would but for this condition entitle the Buyer to repudiate the contract and/ or claim damages from Eastbrook Eastbrook reserves the right to repair or replace the Goods or perform the Services (or the relevant part thereof) again.

12. LIABILITY

12.1 Introduction
12.1.1
Nothing in this clause 12 shall be deemed to exclude or restrict Eastbrook's liability for death or personal injury resulting from Eastbrook's negligence.
12.1.2
Each of the sub-clauses in this clause 12 is to be treated as separate and independent.
12.1.3
Eastbrook is willing to undertake liability additional to that provided by this clause 12 in exchange for a higher price.
12.2 Exclusion
12.2.1
Eastbrook agrees that if any defect caused by faulty design, manufacture, materials or workmanship is discovered during the period of 3 months commencing with the date of delivery or supply, Eastbrook will remedy any defect at its own expense or, in the case of Goods if it chooses to do so, replace them. Defects caused by abnormal use, misuse, neglect or wilful or accidental damage are not covered by this clause.
12.2.2 The Buyer cannot claim the benefit of clause 12.2.1 above unless:
-
he informs Eastbrook of the relevant defect in writing within 7 working days of discovering it; and
-
in the case of Goods, he returns the Goods to Eastbrook at his own expense.
12.2.3
The risk of accidental loss whilst any Goods are being returned to Eastbrook will be borne by the Buyer.

12.2.4
Notwithstanding clause 12.2.1 above, if the manufacturer of any Goods has provided any guarantee of such Goods for a period longer than three months (a "Manufacturer's Extended Guarantee"), Eastbrook shall use its reasonable endeavours to transfer to the Buyer the benefit of any such Manufacturer's Extended Guarantee in respect of the Goods, provided that Eastbrook may in its absolute discretion elect to do so only at the cost of the Buyer.
12.2.5
Any Manufacturer's Extended Guarantee is for the Buyer only who must complete a return and registration form within 30 days of purchase. Manufacturer's Extended Guarantees are not transferable to third parties and do not cover previously installed products such as ex showroom displays. Failure to complete and return a registration form to Eastbrook within the 30 day period will result in the guarantee on such Goods being limited to that stated in clause 12.2.1 above.
12.2.6
Manufacturer's Extended Guarantees cover Goods which are used for normal domestic use only and are not applicable to Goods which are used for commercial use (i.e. hotels, residential homes, leisure facilities etc.).
12.2.7
In the event that a manufacturer of Goods providing a Manufacturer's Extended Guarantee pursuant to clause 12.2.3 above ceases trading and/or no longer honours such guarantee, Eastbrook shall have no liability whatsoever to the Buyer with respect to such Manufacturer's Extended Guarantee.
12.2.8
If the benefit of a Manufacturer's Extended Guarantee is transferred to the Buyer, subject always to clause 12.2.1 above and further subject to the defect not being as a result of fair wear and tear, Eastbrook shall only be liable to provide replacement parts. For the avoidance of doubt, Eastbrook excludes any consequential costs involved in the fitting of such parts. Furthermore, with respect to the following these additional terms are applicable:

Perishable components such as non-glass or metallic parts (e.g. plastic parts, seals, wheels etc.) are excluded from a Manufacturer's Extended Guarantee.

Shower and bath screens: Glass and seals for such products are excluded from a Manufacturer's Extended Guarantee.

Towel rails and radiators: Such products must be individually earthed when installed for a Manufacturer's Extended Guarantee to apply.
12.2.9
If, in the sole opinion of Eastbrook, the Goods which are the subject of the Manufacturer's Extended Guarantee have been modified, misused or neglected or have been wilfully or accidentally damaged, Eastbrook shall not be liable under the Manufacturer's Extended Guarantee for the failure of the Goods.
12.2.10
No claim under a Manufacturer's Extended Guarantee will be accepted if Goods have been installed with a fault that would have been clearly visible before installation. A Manufacturer's Extended Guarantee does not cover any Goods which have been modified, altered, transformed or relocated in any way.
12.2.11
Claims under a Manufacturer's Extended Guarantee must be made by the Buyer within [7 working days] of the defect being discovered.
12.2.12
In consideration for receiving the benefit of this clause, the Buyer agrees that, apart from those terms set out in clause 10 and 11, all other terms, whether conditions, warranties or innominate terms, express or implied, statutory or otherwise, are excluded from the contract between Eastbrook and the Buyer to the extent permitted by law (except where the Buyer deals as consumer within section 12 of the Unfair Contract Terms Act 1977 when the terms implied by sections 13, 14 and 15 of the Sale of Goods Act 1979 shall be implied into the contract).
12.3 Exclusion of Consequential Loss

Eastbrook shall not be liable for any consequential or indirect loss suffered by the Buyer whether such loss arises from breach of a duty in contract or tort or in any other way (including loss arising from Eastbrook's negligence) including, without limitation to the generality of the foregoing:
- loss of profits;
- loss of contracts;
- damage to property of the Buyer or anyone else; or
-
personal injury to the Buyer or anyone else (except so far as such injury is attributable to Eastbrook's negligence).
12.4Limitation
Eastbrook's total liability for any one claim or for the total of all claims arising from any one act or default of Eastbrook (whether arising from Eastbrook's negligence or otherwise) shall not exceed the contract price of the Goods.

13. FORCE MAJEURE

13.1
Eastbrook shall not be liable for any failure to deliver the Goods or perform the Services arising from circumstances outside Eastbrook's control.
13.2
Non-exhaustive illustrations of such circumstances would be act of God, war, riot, explosion, abnormal weather conditions, fire, flood, strikes, lockouts, Government action or regulations (UK or otherwise), delay by suppliers, accidents and shortage of materials, labour or manufacturing facilities.
13.3
Should Eastbrook be prevented from delivering the Goods or performing the Services in the above circumstances, it shall give the Buyer written notice of this fact as soon as reasonably practicable after discovering it.
13.4
If the circumstances preventing delivery of the Goods or performing the Services are still continuing three months after the Buyer receives Eastbrook's notice, then either party may give written notice to the other cancelling the contract.
13.5
If the contract is cancelled in this way, Eastbrook will refund any payment which the Buyer has already made on account of the price (subject to deduction of any amount Eastbrook is entitled to claim from the Buyer) but Eastbrook will not be liable to compensate the Buyer for any further loss or damage caused by the failure to deliver the Goods or perform the Services.

14. SALES PROMOTION DOCUMENTATION

Whilst Eastbrook takes every precaution in the preparation of its catalogue, technical circulars, price lists and its other literature, these documents are for the Buyer's general guidance only and the particulars contained therein shall not constitute representations by Eastbrook and Eastbrook shall not be bound thereby.

15. USE OF DATA

15.1
If the Buyer provides any data relating to the business of the Buyer to Eastbrook for any purpose, then the Buyer agrees that Eastbrook may hold such data and use it in relation to the supply of Goods, to process payment and to inform the Buyer (including all its staff) of other Goods or Services that Eastbrook may offer from time to time. Eastbrook will hold all data relating to the Buyer in accordance with our privacy policy and privacy statements in force from time to time and which is available on demand.

15.2
The Buyer agrees that Eastbrook may share any data referred to in clause 15.1 with third parties only where it is necessary for the provision of the Goods or Services supplied by Eastbrook and further that the Buyer shall hold Eastbrook harmless for the misuse of such data by those third parties.
15.3
In relation to any data supplied by the Buyer to Eastbrook regarding the Buyer's customers, the Buyer warrants and represents that they have obtained consent to share such data with Eastbrook (whether this relates to remedial services or the replacement of Goods or otherwise) and the Buyer agrees to indemnify and keep indemnified, Eastbrook from and against any losses, damages, liability, costs (including legal fees) and expenses incurred by Eastbrook as a result of or in connection with the Buyers breach of this Clause.

16. NOTICES

Any notice to be given hereunder shall be in writing and shall be deemed to have been duly given if sent or delivered to the party concerned at its address specified overleaf or such other address as that party may from time to time notify in writing and shall be deemed to have been served, if sent by post, 48 hours after posting.

17. ASSIGNMENT

Neither Eastbrook nor the Buyer shall assign or purport to assign or transfer the contract or the benefits thereof to any other person without prior written consent of the other.

18. SEVERANCE

18.1
If any provision of this contract (or part of any provision) is or becomes illegal, invalid or unenforceable, the legality, validity and enforceability of any other provision of the Contract shall not be affected.
18.2
If any provision of the contract (or part of any provision) is or becomes illegal, invalid or unenforceable but would be legal, valid and enforceable if some part of it was deleted or modified, the provision or part-provision in question shall apply with such deletions or modifications as may be necessary to make the provision legal, valid and enforceable. In the event of such deletion or modification, the parties shall negotiate in good faith in order to agree the terms of a mutually acceptable alternative provision.

19. PROPER LAW AND JURISDICTION

The Contract shall be governed by and construed in accordance with English law and all disputes arising in connection with the contract shall be submitted to the jurisdiction of the English Courts.

20. HEADINGS

The headings of these conditions are for convenience only and shall have no effect on the interpretation thereof.
