Why choose a wetroom?

Wetrooms add luxury, style and visual appeal to a home, and provide the perfect showering space even in the smallest areas. They create a sense of space, dedicated to luxury and relaxation plus practical level access to the showering area.

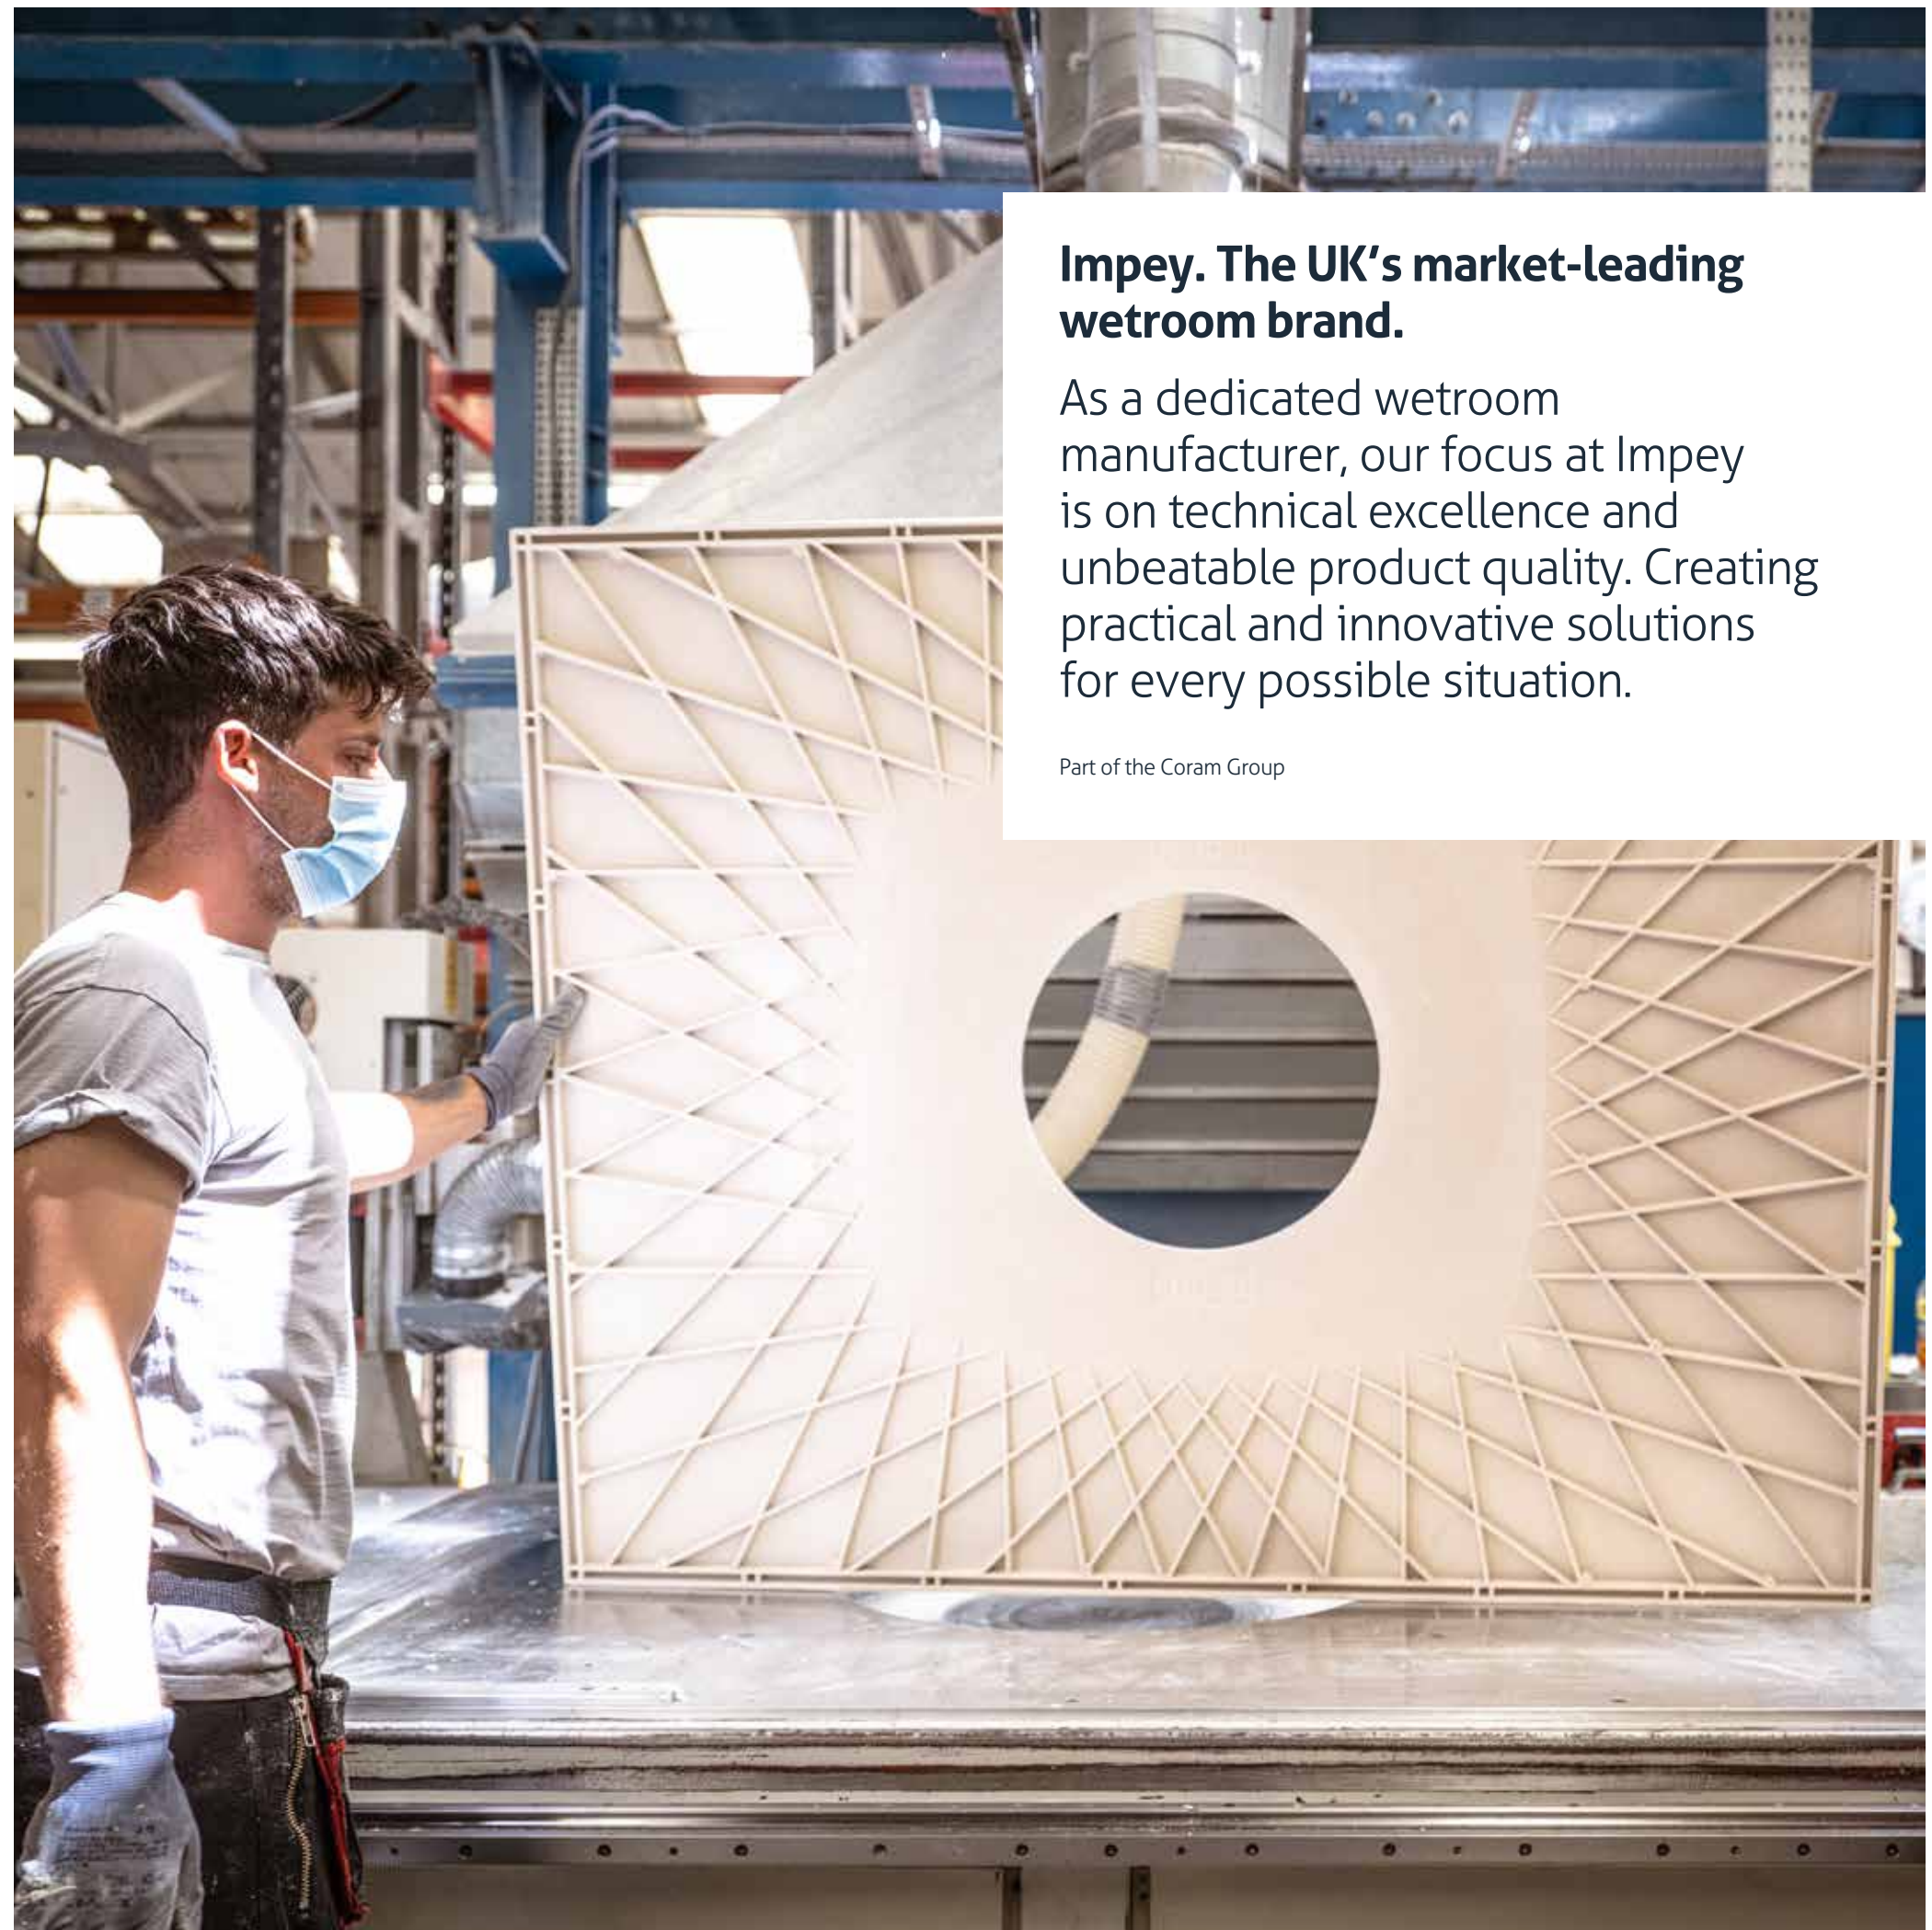

Wetrooms can be easily installed anywhere, from a ground floor space to a loft conversion, and their walk-in or walk-through design makes them accessible to everyone. They're easy to clean and maintain, and with Impey WaterGuard your walls and floors are 100% watertight with a lifetime guarantee.

The perfect leak-free, risk-free solution, for any location.

Impey. The UK's market-leading wetroom brand.

As a dedicated wetroom manufacturer, our focus at Impey is on technical excellence and unbeatable product quality. Creating practical and innovative solutions for every possible situation.

Part of the Coram Group

A perfect wetroom in four simple steps

As the UK's leading wetroom manufacturer we pride ourselves on simple, beautiful solutions born through decades of innovation and product refinement. This has resulted in a wetroom system that is the easiest and quickest to install.

Begin by following these four simple steps:

Step 1. Floor Former

First select the floor former that's right for the situation. There are a range of 7 solutions to choose from in the Impey range.

Step 2. Waterproofing

We've made creating a perfect waterproof and leak-free environment simple with our WaterGuard technology, designed and tested for use on both floors and walls.

Step 3. Underfloor Heating

A highly recommended finishing touch to add real comfort to your wetroom. Aqua-Mat is a highly efficient underfloor heating system fitted under the tiles.

Step 4. Wetroom Screens

Complete your wetroom with a stylish glass wetroom panel. Wetroom panels help restrict water escaping the showering area.

Wetroom Floor Formers

Aqua-Dec floor formers are made to the highest level of care and detail - through streamlined manufacturing process and cutting edge technology - we ensure all products are of unparalleled quality and performance.

Aqua-Dec EasyFit™

The UK's most popular specified and strongest wetroom floor former available. Made for use with wooden floors with joists and concrete floors.

Aqua-Grade™ and Aqua-Grade Linear™

The quick and easy way to create the perfect gradient for new pour concrete floors.

Aqua-Dec Linear 1™

NEW! Floor former featuring one gradient down to the drain, producing a sleek and modern look.

Aqua-Dec Linear 2™

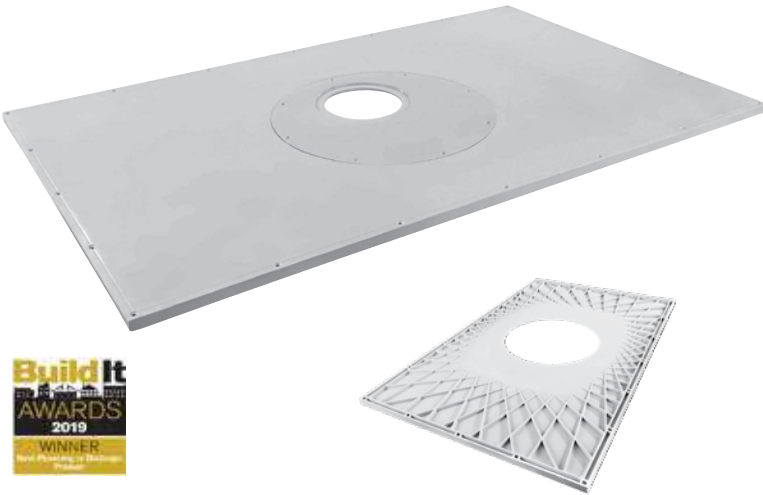

Features two gradients to assist flow to the linear drain. The Aqua-Dec Linear 2 is the perfect solution for corner or alcove settings, with no need for diagonal cuts in the tiles.

Aqua-Dec Linear 3™

3 way uniformed fall featuring an 800mm drain with all sizes. The Aqua-Dec Linear 3 can be fitted not only in corner and alcove settings but also in a walk-through environment.

Aqua-Dec Linear 4™

Features four gradients to assist flow to the linear drain. The Aqua-Dec Linear 4 offers a unique appearance and is incredibly versatile. The Linear 4 can be fitted in a corner, alcove or walk-through setting.

Aqua-Dec EasyFit™

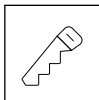

Patented rotating drain plate to avoid all underfloor obstructions

The Aqua-Dec EasyFit floor former is an extremely strong 22mm thick SMC floorboard replacement with four pre-formed drainage gradients to provide a level-access wetroom floor suitable for tiling or vinyl. The Aqua-Dec EasyFit floor former can be trimmed anywhere up to the solid surround with a standard handsaw and features an underside cellular structure. The underside spoke pattern also provides increased rigidity to the structure of the floor former.

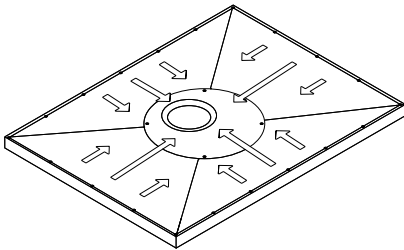

Key Features of Aqua-Dec EasyFit

- 4 gradients leading to the drain
- 4 diagonal tile cuts
- 125mm or 127mm square drain, depending on drain top design
- The most versatile floor former, suited to all showering situations
- 360° drain positioning
- Trimmable
- 22mm thick
- Made in the UK

Aqua-Grade™

Create the perfect tiled wetroom drainage gradient for new pour solid floors

The Aqua-Grade modular wetroom system enables you to build the perfect wetroom drainage on any concrete floor, whatever its specific requirements. Colour coded modular sections click together to form any size of matrix - which you then simply fill with screed, reducing installation time by up to 50%. Designed to be installed directly onto the sub-floor and is especially suited to uneven surfaces as it can be easily levelled by adjusting the individual feet to provide the perfect platform.

Key Features of Aqua-Grade

- Colour coded modular sections
- Easily click together to form the matrix
- Square drain top
- Fill with screed, reducing installation time by up to 50%
- Install against a wall, in a corner or in centre of the room

The Aqua-Grade modular wetroom system enables you to build the perfect wetroom drainage on any concrete floor, whatever its specific requirements. Colour coded modular sections click together to form any size of matrix - which you then simply fill with screed, reducing installation time by up to 50%.

Designed to be installed directly onto the sub-floor and is especially suited to uneven surfaces as it can be easily levelled by adjusting the individual feet to provide the perfect platform.

Key Features of Aqua-Grade Linear

- Colour coded modular sections
- Easily click together to form the matrix
- Drain tops available in 400mm, 600mm or 800mm
- Fill with screed, reducing installation time by up to 50%
- Install against a wall, in a corner, in an alcove or in centre of the room

For details on Impey's Lifetime Watertight Guarantee, please visit our website.

Aqua-Dec Linear 1™

Features one gradient to assist flow to the linear drain

With having a single fall for the water to drain, the Aqua-Dec Linear 1 wetroom floor former brings the modern look to your bathroom. Sleek design and functionality, requiring the minimal amount of grout lines and tile cuts. Integrating your showering area into your bathroom floor seamlessly. The Aqua-Dec Linear 1 is 22mm thick and can be installed on timber or concrete floors, providing flow rates of 40l/min. The Aqua-Dec Linear 1 is supplied with a gravity waste.

Key Features of Aqua-Dec Linear 1

1 gradient leading to the drain

No diagonal tile cuts

800mm linear drain tops

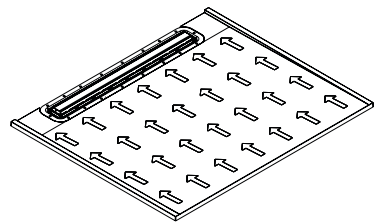

Ideal for corner or open installations

Linear drain 50mm from the wall

3 sizes available

Not trimmable

Made in the UK

Aqua-Dec Linear 2™

Features two gradients to assist flow to the linear drain

The construction of the Aqua-Dec Linear 2 wetroom floor former means there is no need to mitre the tiles in the corners. The Aqua-Dec Linear 2 is 22mm thick and can be installed on timber or concrete floors, providing flow rates of 40l/min. The Aqua-Dec Linear 2 is supplied with a gravity waste.

Key Features of Aqua-Dec Linear 2

2 gradients leading to the drain

No diagonal tile cuts

600mm linear drain top

Ideal for alcove installations

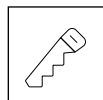

Linear drain 244mm from the wall

4 sizes available

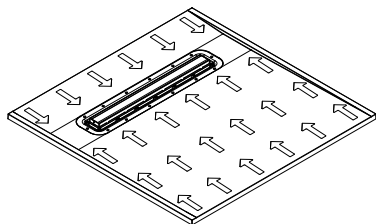

Trimmable*

Made in the UK

*Please refer to linear trimming guide available on the Impey website

TRIMMABLE

Aqua-Dec Linear 3™

Features three gradients to assist flow to the linear drain

Unlike the Aqua-Dec Linear 1, 2 and 4, the Aqua-Dec Linear 3 can be cut to length within 75mm each side of the drain edge to assist with alcove spaces. Ideal for a minimal 'barely there' look with a compatible walk-through screen. The Aqua-Dec Linear 3 is 22mm thick and can be installed on timber or concrete floors, providing flow rates of 40l/min. The Aqua-Dec Linear 3 is supplied with a gravity waste.

Key Features of Aqua-Dec Linear 3

3 gradients leading to the drain

2 diagonal tile cuts

800mm linear drain top

Ideal for walk-through installations

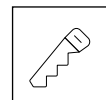

Linear drain 50mm from the wall

6 sizes available

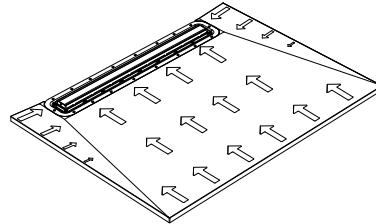

Trimmable*

Made in the UK

*Please refer to linear trimming guide available on the Impey website

TRIMMABLE

Aqua-Dec Linear 4™

Features four gradients to assist flow to the linear drain

The style of the floor former, with 4 gradients leading down to the drain, draws your eye to the Linear Drain Top and provides a real statement. The broad range of sizes, 2 drainage widths of 600mm and 800mm and balanced design makes this the most versatile Linear floor former. The Aqua-Dec Linear 4 is 22mm thick and can be installed on timber or concrete floors, providing flow rates of 40l/min. The Aqua-Dec Linear 4 is supplied with a gravity waste.

Key Features of Aqua-Dec Linear 4

4 gradients leading to the drain

4 diagonal tile cuts

600 or 800mm linear drain tops

The most versatile Linear option, compatible with walk-through, walk-in, corner and alcove spaces

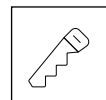

Linear drain 194mm from the wall

9 sizes available

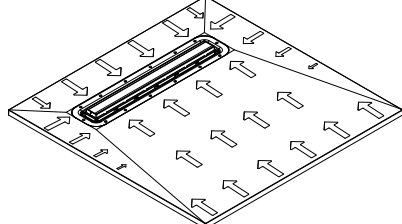

Trimmable*

Made in the UK

Tiled and Vinyl Drainage

Tiled Drainage options

Gravity Tiled

Features:

- 100% WaterGuard compatible
- Laser cut high grade stainless steel
- Removable components for easy cleaning
- Patented telescopic height adjustment technology (6 - 26mm or 14 - 24mm depending on drain top)
- Easily handles high flow rates from power showers
- 50mm water seal
- 43mm solvent weld pipe connection
- Available with horizontal or vertical outlet

Alternative Tiled Drainage

Drainage solutions for various wetroom spaces and installation scenarios are available to purchase. In some situations, a certain drain type will be required due to the setting it is being placed in.

Slim+ and Pumped Drainage are compatible with Aqua-Dec EasyFit and Aqua-Grade at an additional charge.

Tiled Slim+ Drain

The Slim+ Drain is designed for when the floor structure below is restricted in depth.

Features:

- Ideal solution when the floor structure below is restricted in depth
- 100% WaterGuard compatible
- Patented 6-26mm height adjustment technology
- Flow rate of up to 32l/min
- Removable components for easy cleaning

Tiled Pumped Drain

The Pumped Drain is the ideal solution for unbreachable floors as it evades any limitations that a floor structure may bring.

Features:

- 100% WaterGuard compatible
- Patented 6-26mm height adjustment technology
- The Pumped Drain must be used with a shower waste pump to discharge showering water in areas gravity drainage is not an option, and is fully compatible with Whale pumps
- Removable components for easy cleaning

Vinyl Flooring Drainage options

Gravity Drain for Vinyl flooring is available with grey or chrome cover and clamping ring. This Vinyl trap provides the same features as the standard Tiled Gravity except for the height adjustment. There is no height adjustment within this product. This product is compatible with Aqua-Dec EasyFit.

Features:

- Removable components for easy cleaning
- Easily handles high flow rates from power showers
- 50mm water seal
- 43mm solvent weld pipe connection
- Available with horizontal or vertical outlet

Available in Horizontal and Vertical versions.

Grey or chrome cover cap available

Vinyl Slim+ Drain

The Slim+ Drain is designed for when the floor structure below is restricted in depth.

Features:

- Ideal solution when the floor structure below is restricted in depth
- Flow rate of up to 32l/min
- Removable components for easy cleaning
- Available with grey or chrome cover cap

Vinyl Pumped Drain

The Pumped Drain is the ideal solution for unbreachable floors as it evades any limitations that a floor structure may bring.

Features:

- The Pumped Drain must be used with a shower waste pump to discharge showering water in areas gravity drainage is not an option, and is fully compatible with Whale pumps
- Removable components for easy cleaning
- Available with grey or chrome cover cap

Whale Shower Waste Pumps

Whale Shower Waste Pumps are wall mounted systems and can easily be concealed within a vanity unit, or cupboard up to 2m away from the shower drain. **Whale shower waste pumps are fully compatible with Impey's Pumped Waste.**

Both options are fully automated with shower control and have been designed to minimise suction noise at drain.

Instant Match Premium

The choice of shower waste pump for showers with flow rates not exceeding, or regulated up to 12l/min. Whale's quietest shower drainage pump to date built on 20 years of experience with over 300,000 kits installed throughout the UK.

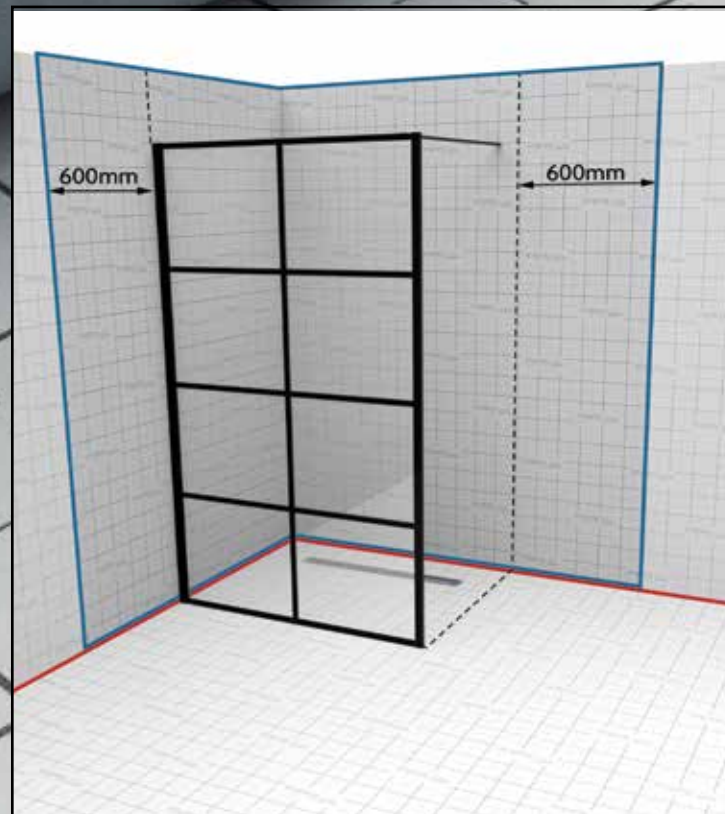

Dry Deck 20

When you want a shower waste pump that can handle a bit more volume, the Dry Deck 20 is suitable for showers with a flow rate of up to 20l/min. Designed to minimise drainage suction noise by precisely matching the pump flow rate to the shower flow rate.

For support and advice on Whale Shower Waste Pumps, please contact our Technical Team.

Waterproofing

WATERPROOF ZONING GUIDE

Mandatory requirement

> **Red zone coverage** - The entire wetroom floor **MUST** be tanked with WaterGuard to qualify for our lifetime guarantee.

Recommended

> **Red and Blue zone coverage** - The entire floor and walls immediately inside the wet area and extending 600mm beyond should be tanked to stop any water ingress into walls.

Highly recommended

> **Complete coverage** - WaterGuard tanking throughout the entire wetroom (floors and walls) will create a seamless impenetrable wetroom, providing heat and sound insulation and decoupling throughout.

Impey WaterGuard™

Essential requirement for the wetroom

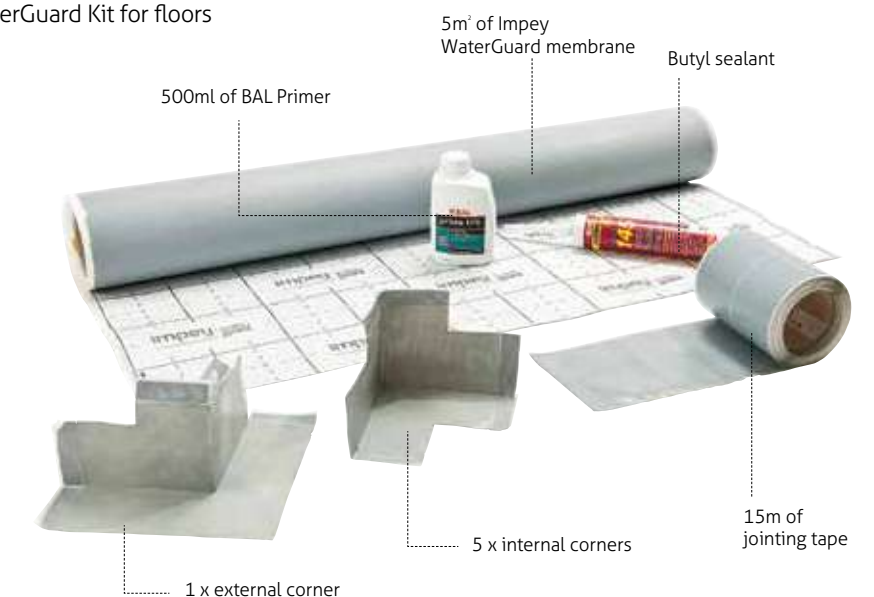

INSTALLATION VIDEO GUIDE
SCAN BELOW TO WATCH

WaterGuard is a 1mm thick, flexible waterproofing membrane. The complete wetroom sealing solution - not just for floors but also for walls. When correctly installed across the entirety of a wetroom floor, it provides an impenetrable barrier against leaks, guaranteed for life. WaterGuard is the perfect application for waterproofing walls, tested for use on Plasterboard, Cementboard and Plyboard. WaterGuard can safely support vertical loads of 30kg/m².

This unique system provides the ultimate watertight wetroom with its market-leading membrane design. WaterGuard is fully compatible with all Impey products and is fully compatible to use with Aqua-Mat underfloor heating. Adding WaterGuard to your wetroom gives you the peace of mind with Impey's Lifetime Watertight Guarantee.

Image shows 5m²
WaterGuard Kit for floors

Features:

Complete waterproof solution for floors and walls including pre-made corners

Butyl rubber backed self-adhesive sealing membrane supplied on a roll

Can tile directly after laying

Polypropylene fleece

Can be used with epoxy and solvent based sealers

Highly elastic de-coupling properties

Maximum wall load bearing 30kg/m²

Can withstand temperatures of 60°C

Benefits:

Everything you will need to tank your wetroom, saving time and cost

A clean material which is easy to handle and very quick to apply with no curing time

Reduces installation time dramatically

Provides an excellent bond with tile adhesive

A reliable membrane to use in all situations

No need to buy an additional decoupler

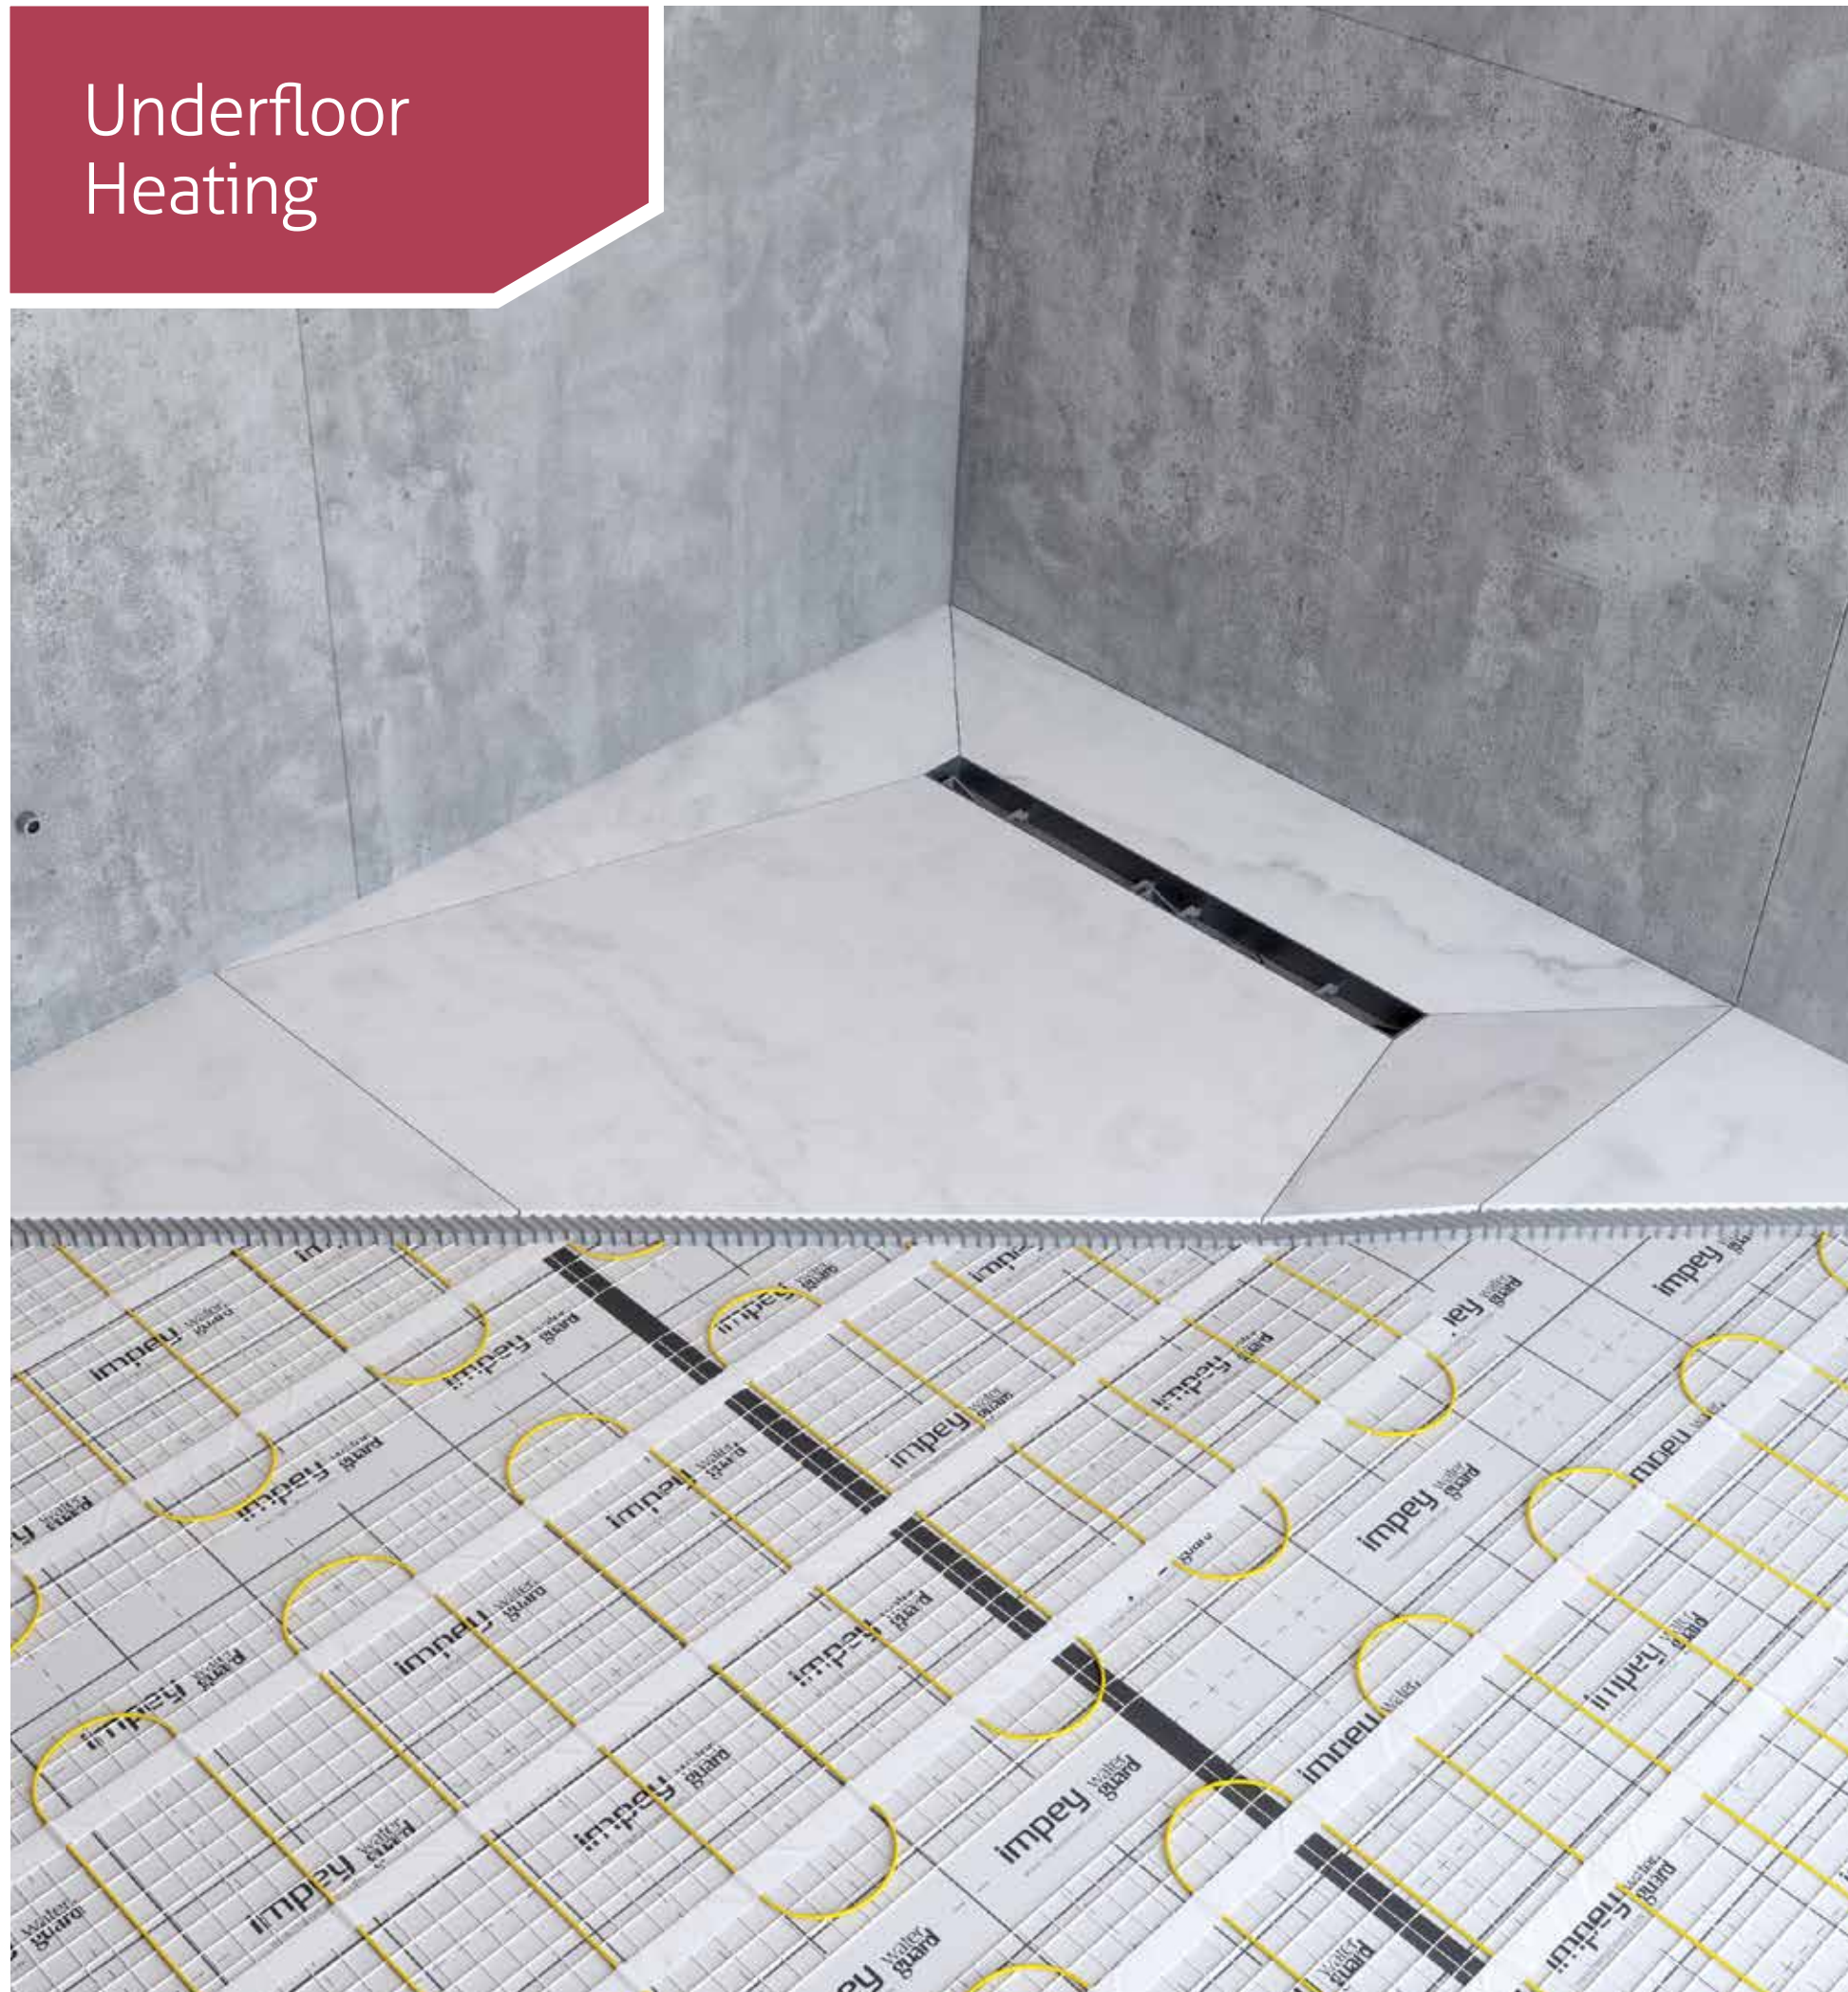

Works well with heavy wall tiles

Compatible with Impey Aqua-Mat underfloor heating

Install our WaterGuard™ system with any Aqua-Dec floor former and receive our Lifetime Watertight Guarantee. For details please visit our website.

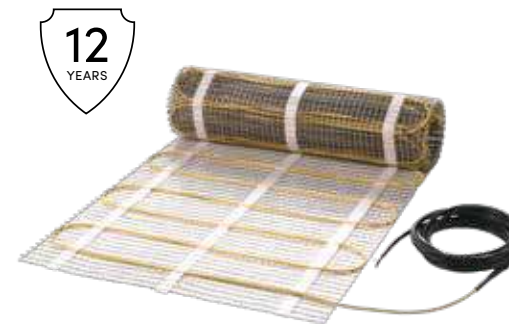

Underfloor Heating

Aqua-Mat™

Increased comfort and faster drying time in the wetroom

Impey's Aqua-Mat underfloor heating is the finishing touch to make the most of your wetroom. Aqua-Mat offers unrivalled warmth, exceptionally fast drying times, and complete comfort underfoot. Aqua-Mat is 100% compatible with all Impey wetroom products.

Features:

- Strong self-adhesive mesh
- Only 4mm in depth
- 100% aluminium earth sheath
- 100% compatible with Impey floor formers
- Twin Conductor
- 12 year warranty
- Available in:
100W for concrete and timber flooring
150W for concrete subfloors

Thermostats

Now with touch screen technology

DEVIreg Touch

Features:

- 2" Backlit touch screen
- 7 day programmable
- Simple 7 step set up wizard
- Both floor and air sensor
- Reduce energy waste by up to 12%
- 5 year warranty

Devi Smart

Features:

- WIFI Connectivity
- Simple and intuitive touch screen design
- Remote controllable using the DEVIsmart App
- Able to control an unlimited number of locations
- Can be paired with up to 10 mobile devices
- Variety of Smart features including frost protection, weekly schedule, holiday mode and economy mode
- Smart app features allow you to schedule your requirements, and adapt to climatic conditions, reducing your energy costs
- 5 year warranty

Amber DT-TWO

Features:

- Large colour touch screen front
- 7 day, 6 period programme
- Floor temperature limiting function
- Sensor offset
- Frost protection
- Holiday mode
- 2 year warranty

Wetroom Screens

Image shows a left hand configuration

Soho®

The Soho wetroom screen marries high-specification functionality with on-trend aesthetics to offer a unique, design-led option for wetrooms and shower areas.

Inspired by urban industrial partitioning, the high-quality aluminium-framed screen is powder coated in jet black boasting 8mm toughened safety glass; exposed frames on the outside of the unit, and visible screws to enhance the screen's authentic appeal. As part of Impey's complete wetroom solutions portfolio, 'Soho' is available in a variety of sizes and configurations to create your perfect showering situation. A wetroom system combined with Soho offers the ideal opportunity to add style and appeal to your bathroom.

Height: 2100mm to top of screens
The Soho range is designed to be installed on an Impey wetroom floor former and cannot be installed on a traditional shower tray.

Aqua-Dec Linear™

All Aqua-Dec Linear floor formers are supplied with linear drain as shown, horizontal outlet and brushed stainless steel top.

All Aqua-Dec Linear floor formers are 22mm thick at the outer rim to be the same depth as most commonly used flooring materials.

Linear drain requires a minimum 95mm clearance below the Aqua-Dec.

Vertical waste available upon request.

Element Stainless Steel drain top comes as standard.

600mm and 800mm alternative drain top options available upon request.

TRIMMABLE

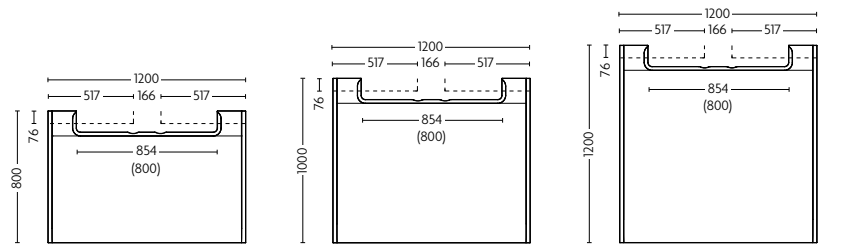

Aqua-Dec Linear 2, 3 and 4 now feature trimmable properties. Speak to our Technical team to discuss more or download the Trimming Guide available on the Impey website.

High flow rates of up to 40 litres per minute depending on the room layout and the size of Aqua-Dec Linear 1, 2, 3 and 4. Under boarding required.

Drainage

Impey Universal system

The Impey Universal Trap comprises a set of interchangeable components which are combined to make a range of drain products. The range includes both linear and wet floor drains for use in corresponding Impey floor former systems, as well as standalone linear drains for use in a concrete screeded floor.

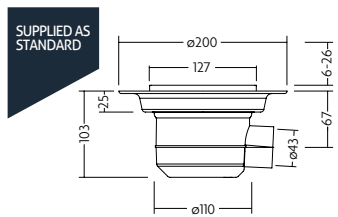

The term 'Universal Trap' is used in reference to the trap and sump components which are shared across all drain configurations.

Square Tiled and Circular Vinyl Drainage

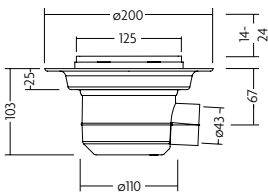

All Aqua-Dec EasyFit and Aqua-Grade floor formers are supplied with a UTT01/H tiled floor gully or UTVG01/H grey vinyl floor gully with a horizontal outlet - a high quality water tray featuring a 50mm water seal and fixed 43mm outlet**. A vertical outlet, or alternative drainage solutions are available on request. All drainage solutions come complete with a stainless steel drain top.

**As a 1:40 fall

Linear Floor Drain - Gravity

All Aqua-Dec Linear and Aqua-Grade Linear come with a Gravity drain with horizontal outlet and Element Drain Top as standard. These drains feature a 50mm water seal and 43mm outlet*.

**As a 1:40 fall

Element Brushed Stainless Steel

Drains with the Element drain top include a WaterGuard clamp, for guaranteed watertightness, and a removable diptube and bucket alongside a lifter tool for ease of cleaning. The Element drain top is height adjustable from 6mm - 26mm, to suit varying tile depths and use with underfloor heating.

When bought separately as a standalone linear drain:		
400mm LNR40S/H or V	Price: £315.58 Exc. VAT	£378.70 Inc. VAT*
600mm LNR60S/H or V	Price: £343.42 Exc. VAT	£412.10 Inc. VAT*
800mm LNR80S/H or V	Price: £371.26Exc. VAT	£445.51 Inc. VAT*

PLEASE NOTE: Upgrade costs are fixed and therefore are non-discountable

Tiled Insert 13mm

Drains with the Tiled Insert 13mm drain top include a WaterGuard clamp, for guaranteed watertightness, and a removable diptube and bucket alongside a lifter tool for ease of cleaning. The Tiled Insert 13mm Drain top has a fixed height of 13mm from the floor former to the top of the tiling frame.

When purchased separately as a standalone linear drain:		
400mm LNR40T8/H or V	Price: £382.43 exc. VAT	£458.92 inc. VAT*
600mm LNR60T8/H or V	Price: £413.72 exc. VAT	£496.46 inc. VAT*
800mm LNR80T8/H or V	Price: £441.56 exc. VAT	£529.87 inc. VAT*

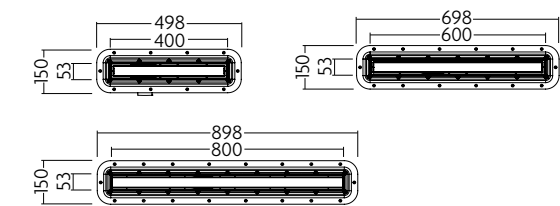

Available as an upgrade ONLY when purchasing a Linear floor former:		
400mm LNR40T8/H or V	Price: £24.52 exc. VAT	£29.42 inc. VAT*

WATERPROOF ZONING GUIDE

Mandatory requirement

> **Red zone coverage** - The entire wetroom floor **MUST** be tanked with WaterGuard to qualify for our lifetime guarantee.

Recommended

> **Red and Blue zone coverage** - The entire floor and walls immediately inside the wet area and extending 600mm beyond should be tanked to stop any water ingress into walls.

Highly recommended

> **Complete coverage** - WaterGuard tanking throughout the entire wetroom (floors and walls) will create a seamless impenetrable wetroom, providing heat and sound insulation and decoupling throughout.

Soho® Wetroom Screen

Soho by Impey is a specialist wetroom product especially designed to be installed on our market leading wetroom floor formers.

Note: Soho cannot be installed on a shower tray.

Impey is part of Coram UK Holding Ltd

The Coram International bathroom group
A Dutch family-owned business with offices in the Netherlands, Belgium, United Kingdom, Poland & Norway. Exporting to more than 70 countries worldwide.

Coram Showers: A leading brand of shower enclosures, bath screens and shower trays with over 70 years of operation in the UK with very strong presence in plumbers merchant and bathroom retail sectors. Coram enclosures are designed to meet the highest aesthetic and functional standards expected whilst maintaining the reputation as a stylish and hassle-free range to install and maintain. Style with Standards.

Tiger: Founded in 1950, Tiger specialised in a manufacturing a wide range of plastic products for different applications. From bicycle handles to soap dishes. Tiger quickly became very successful in the Netherlands and in 1957 a start was made on exploring the international market. The Tiger brand grew quickly into international playing field with a wide range of bathroom accessories. The brand is recognised for it's design and innovation.
